Office of the County Executive

Monroe County, New York

Maggie Brooks
County Executive

November 9, 2010

To The Honorable
Monroe County Legislature
39 West Main Street
Room 407
Rochester, New York 14614

Honorable Legislators:

I am pleased to present for your review and approval the proposed 2011 Annual Budget for Monroe County.

This is the seventh budget that I am submitting as County Executive. For the seventh consecutive year, I take great pride in presenting a budget that provides stable property taxes for our overburdened local taxpayers. Even in the face of an unprecedented economic crisis, the 2011 Budget preserves the reduced rate we set together in 2008, of \$8.99 per \$1,000 of assessed value. I am honored to again fulfill my longstanding commitment to protect our community's taxpayers and their families.

The 2011 budget is balanced, fiscally sound, reduces the size of government without cutting quality-of-life services, and is in compliance with Monroe County's Taxpayer Protection Act. Operating Budget spending totals \$931.7 million and Grant Budget spending totals \$176.7 million.

Mandated costs, the single largest portion of the 2011 Budget, comprise a staggering 82% of the Budget, an increase of \$24.6 million or 3.7%. The size and growth of mandated spending in our Budget echoes a report by the New York State Association of Counties (NYSAC) showing that nine mandated programs – probation, early intervention, pre-school, indigent defense, youth detention, welfare, child welfare, pensions, and Medicaid – are primarily responsible for 90% of the average county tax levy. These findings leave little question as to why Upstate New York is saddled with one of the highest tax burdens in the Nation. In the days and months to come, I will continue to fight for more control over how our constituents' tax dollars are spent by leading the call for mandate reform.

Through a combination of strict cost controls and the continued streamlining of County services, the 2011 Budget holds taxpayer supported non-mandated spending – or the spending that we can control on a local level – below the rate of inflation. Even as exploding pension costs and other State mandates challenge counties, the 2011 Budget holds non-mandated spending to an increase of only \$866,875, or 0.9%. I am especially proud that we have reigned in spending without cutting any of the vital quality-of-life services that residents expect and deserve.

Also significant for our taxpayers are the tremendous savings realized by adopting the Medicaid Swap as the method of funding Monroe County's local share of the Medicaid Program. Our innovative decision to opt into the Swap continues to yield enormous savings. As a direct result of the 2007 decision, it is anticipated Monroe County will save \$13.8 million in the coming year. Since its inception in 2008, through 2011, the Swap is projected to achieve nearly \$40 million in cumulative savings.

As county governments across New York State find drastic solutions to balance their budgets in the face of crushing State mandates, I am proud that the 2011 Monroe County Budget provides stability for our community without resorting to extreme measures. By embracing fiscal discipline we will continue our successful efforts to create jobs and protect taxpayers in the coming year.

Sincerely,

Maggie Brooks
Monroe County Executive

2011 MONROE COUNTY BUDGET EXECUTIVE SUMMARY

GENERAL OVERVIEW OF THE BUDGET

Monroe County's 2011 Budget stands as a blueprint for fiscal discipline that derives strength from years of innovative, forward-thinking financial planning. It bridges a significant structural resource gap to produce balanced spending, even as many local governments across New York State are being crushed under the weight of increasing mandates and decreasing revenues. Most importantly, the 2011 County Budget delivers a 7th consecutive year of property tax stability at a time when overburdened local property owners need it most. The 2011 Budget holds the property tax rate flat, responsibly funds quality-of-life services, reduces the size of government, and is in compliance with Monroe County's Taxpayer Protection Act. Through a combination of strict cost controls and streamlining of County services, the 2011 Budget offsets exploding pension costs and other State mandates by holding taxpayer supported non-mandated spending below the rate of inflation. These achievements not only help to avert the crisis facing many counties in 2011, but also speak strongly to the Brooks Administration's deep commitment to fiscal responsibility and the protection of taxpayer resources.

	Adopted 2010	Proposed 2011	Change	% Change
<u>OPERATING BUDGET (in millions)</u>				
Mandated	656.3	680.9	24.6	3.7
Non-Mandated	94.7	95.5	0.9	0.9
Debt Service	73.5	66.2	-7.4	-10.0
Non-Mandated User Fee Supported	89.4	89.1	-0.3	-0.3
Total Operating Budget	913.9	931.7	17.8	1.9
Amounts may not add due to rounding				

The 2011 Operating Budget totals \$931,702,757, a \$17,787,858 or 1.9% increase over the 2010 Adopted Budget. The 2011 Grant Budget totals \$176,696,657, a \$2,903,135 or 1.7% increase over the 2010 Adopted Budget.

Mandated spending, which represents a staggering 82% of total expenditures, increases by \$24,567,186, or 3.7%. The relative magnitude and growth of mandated spending in the budget reinforces a report by the New York State Association of Counties (NYSAC), that implicates nine mandated programs – probation, early intervention, pre-school, indigent defense, youth detention, welfare, child welfare, pensions, and Medicaid – as primarily responsible for 90% of the average county tax levy. While County Executive Brooks continues to lead the fight for mandate reform, these factors leave little doubt as to why Upstate New York shoulders one of the highest tax burdens in the Nation.

For 2011, non-mandated expenses are held below the rate of inflation through a combination of strict cost controls and the continued streamlining of County services. Even as exploding pension costs and other State mandates challenge counties, the 2011 Budget holds non-mandated spending to an increase of only \$866,875, or 0.9%. The Consumer Price Index (CPI) is currently 1.1%, leaving the budget in compliance with the Taxpayer Protection Act of 2007.

Monroe County continues to reduce headcount by carefully examining each vacant position and filling only those that provide essential and efficient delivery of service. In 2011, the County will support 114.5 fewer full-time-equivalent positions, resulting in an estimated savings of \$6,700,000. That includes 47 employees opting into Early Retirement, 55.5 positions eliminated through attrition, and 12 layoffs. Layoffs will occur in the Departments of Human Services and Environmental Services, and at Monroe Community Hospital.

The 2011 Budget also utilizes several other means to overcome the State's shifting of costs to counties. Monroe County will continue to benefit from an increase in federal reimbursements for Medicaid, in the amount of \$11 million. \$16 million is expected from the sale of property tax liens. The Budget also reduces under-utilized and non-essential County infrastructure by calling for the sale of the vacant Gateway and Edwards Buildings, generating an estimated \$2 million.

Bolstering the County Budget again this year are enormous savings achieved by adopting the Medicaid Swap as the method of funding Monroe County's local share of the Medicaid Program. As a direct result of the Administration's decision, it is anticipated the County will save \$13.8 million in 2011. Furthermore, for the period of 2008 through 2011, the Swap is projected to achieve nearly \$40 million in cumulative savings.

In a period of great economic challenge for local taxpayers, County Executive Brooks' 2011 budget provides our community with much needed stability and security. However, as the multi-year forecast indicates, our shared future holds many challenges. Increases in personnel costs, anticipated cuts in state and federal aid and the continued burden of unfunded mandates will continue to test the resolve and ingenuity of County government. That being said, the Brooks Administration has proven itself highly capable of overcoming challenges in both the past and present – and its record of fiscal discipline suggests it is well positioned to do so in the future. As a result of County Executive Brooks' steadfast leadership, we are confident Monroe County will continue to experience economic stability in the years to come.

BUDGET DOCUMENT FORMAT

The budget document delineates mandated and non-mandated spending for each department. The budget for each elected office is also detailed and includes a summary of mandated and non-mandated services. In addition, the budget document contains a Multi-Year Forecast which shows the projected expenses and revenues for 2012 and 2013.

COUNTY SERVICES OVERVIEW

Below is an overview of services by Elected Official and their departments:

COUNTY EXECUTIVE

Included in the County Executive budget section are the departments of County government that are within the County Executive's management responsibility. Some of the major department highlights include:

Aviation: The Greater Rochester International Airport is a significant part of the region's economic development infrastructure. Through operating agreements with the airlines, the Airport is self-funded and requires no financial assistance from the County's general fund. In 2010, the Airport completed the in-line baggage screening operations on the ground floor of the terminal, removing screening equipment from the ticketing lobby. Also in 2010, a multi-screen projection system video wall with an image capacity of ten by sixty feet was installed. Featured on the video wall is economic development messaging for local businesses.

In 2011, the Airport will begin terminal renovations to the ticketing lobby and will continue to work cooperatively with local business organizations and the community to attract new airline services and increase revenue to the Airport from non-airline sources.

Board of Elections: The Board of Elections conducts all national, state, county, city and town elections in Monroe County. In 2010, the department continued to procure and test new voting equipment, train staff in its operation and maintenance, and educate the community on the use of these machines in compliance with the Help America Vote Act. The department also worked in partnership with three other counties as a pilot review committee to affect updates to state regulations. In 2011, the department will review and assess for improvement all policies and procedures related to the use of the new image cast voting machines in the 2010 elections.

Human Services (DHS): The Department of Human Services oversees federal and state mandated social service programs along with the County's investment in preventive and protective services. In 2010, DHS continued Project SAVE, a multi-year initiative designed to improve outcomes for individuals on public assistance and foster care with the simultaneous goal of reducing costs by helping clients transition to self-sufficiency more quickly. For 2010 this included implementing Phase I of the Building Bridges demonstration project designed to reduce the length of stay of children in costly residential foster care, and instituting a walk-in appointment system for Public Assistance and Food Stamp applicants. The new appointment system will reduce wait time and better serve clients by notifying ineligible applicants up front and directing them to other program areas of potential eligibility. In 2011, DHS will continue to implement, monitor and amend Project SAVE to ensure that the program provides its clients and Monroe County with the best possible outcomes.

Monroe Community Hospital (MCH): MCH is one of the largest publicly owned nursing home facilities in the State and is recognized as a leader in rehabilitation and long term care. MCH continuously strives to provide high quality health care in the face of dwindling resources. In just two years, from mid 2009 to mid 2011, it is estimated that Medicaid revenue will be reduced by over \$4 million. To minimize the impact of these cuts, MCH aggressively pursues other sources of revenue such as Medicare Part D, a pharmacy expense recovery program which is projected to generate \$2.9 million in revenue for 2011. MCH is also exploring cost saving strategies such as potential outsourcing of several non-patient care functions.

Public Defender: The Public Defender's Office represents indigent individuals in Criminal, Family and Surrogate Court. In 2010, the department effectively represented clients in approximately 29,000 cases. It also developed an externship program for law students, greatly expanded its internship program for college and high school students

and conducted over twenty continuing legal education programs for attorneys in the criminal defense community. For 2011 the department plans to expand its collaboration with other agencies to create regional initiatives designed to improve client representation while reducing office expenses.

Public Health: This department provides a wide variety of services designed to promote health and protect the public from disease and environmental hazards. Programs include disease prevention and control, environmental health, maternal and child health as well as the Medical Examiner's Office. In 2010, the department planned, coordinated and completed the H1N1 Vaccination Campaign resulting in over 25,000 Monroe County residents receiving vaccines at 25 different County sponsored vaccination clinics.

In 2011, implementation of a new integrated electronic medical records system in its clinics is planned which will optimize billing capacity, provide greater tracking of the delivery of services and increase operational efficiency. Also, operation of the new Monroe County Foster Care Pediatric Clinic and Visitation Center will begin in 2011 enabling families with children in foster care to be better served by creating a single, safe and secure site for family visitations and delivery of medical services.

Public Safety: This department consolidates and manages functions related to the provision of public safety services to our community. These services include the 911 call center, radio communications system, emergency responder training and Probation. In January 2010, Public Safety Communications activated a new digital law enforcement voice communications system to provide effective, reliable infrastructure and equipment and to comply with Federal Communications Commission narrowband regulations. The system will afford the opportunity to enhance interoperability through shared resources and centralized functions.

The Public Safety Laboratory construction is currently on schedule and within budget, with the expectation of being complete in June 2011. The new crime lab will be a state-of-the-art facility providing efficiencies through its layout, as well as addressing space issues and inadequacies in the current facility. Also, implementation and testing of the Computer Aided Dispatch system will occur in 2011, with expected project completion in early 2012. The Police Records Management System will be in the design and development phase in 2011 as well as the Public Safety Integrated Management system which encompasses all records originating with a 911 call. This system is intended to avoid duplication of efforts by integrating police, fire, and EMS records management and jail/booking systems.

Public Works Sector: This sector includes the Departments of Environmental Services (DES), Transportation (DOT) and Parks. In 2010, DES continued its comprehensive Pure Waters collection system and treatment plant improvements, completed construction on the Monroe County Pediatrics and Community Visitation Center, and continued to lead the way with the collection and disposal of pharmaceutical waste. In 2011, DES will complete construction of the Monroe County Public Safety Laboratory, begin construction of a new Household Hazardous Waste Facility and work cooperatively with the City of Rochester to begin construction of the Multi-Agency Green Fueling Stations.

In 2010, DOT completed highway sealing and resurfacing projects covering approximately 202 lane miles and utilized American Recovery and Reinvestment Act

funds for a range of highway improvements. In 2011, the Sign Retroreflectivity Upgrade Project will commence. The objective of this seven year project is to replace 73,000 traffic signs with those having larger letter size and greater retroreflective to conform with new federal highway standards.

In 2010, the Parks Department constructed master plan improvements at Greece Canal and Abraham Lincoln Parks and completed the Olmstead Lodge at Highland Park. The department plans to initiate improvements to the Elephant Exhibit in 2011, in addition to designing Webster and Mendon Park improvements and completing the Powder Mills Park master plan.

COUNTY CLERK

The County Clerk is the County Registrar and the Clerk of the Supreme and County Courts. A hallmark of this office has been the use of technology to facilitate access to records and information. The Integrated Records Management System provides enhanced online document access, redacts the display of social security numbers in online documents and improves Pistol Permit record processing. In 2010, the Clerk's Office accepted the first electronic court filing in Monroe County and plans to expand the types of electronic filing that are available in 2011.

The Clerk's Office continues to provide expanded customer access for key services through Mobile DMV, DMV Saturdays, Passport Express and Passport Saturdays.

COUNTY LEGISLATURE

The County Legislature is comprised of 29 elected legislators representing the residents of Monroe County. The budget includes the appropriations for the legislators as well as the Office of the Legislature and Legislature Clerk, the Office of the Legislature President and staff support for both Republicans and Democrats.

DISTRICT ATTORNEY

The District Attorney (DA) is the Chief Prosecutor for Monroe County and his department oversees the prosecution of all crime in the County. The DA's Office services 70 courts. In 2010, the DA's Office continued to support the Zero Tolerance Program, the Project EXILE Gun Interdiction Program, and Operation IMPACT, a program aimed at reducing violent crime rates and gang related violence. Further, the DA's Office sustained its support of Project Step Up with the Boys and Girls Club of Rochester, a summer program focused on helping at-risk youth resist gun, drug and gang peer pressure, and secured funding to support the Boys and Girls Club of Rochester's Accelerated Reading Program for younger students.

In 2011, the DA's Office will continue to pursue new grant funding for crime fighting initiatives and work toward expanding programs like Operation IMPACT, Project EXILE and its programs with the Boys and Girls Club of Rochester.

SHERIFF

The Sheriff is a constitutional officer elected to a four-year term and serves as an officer of the court and conservator of the peace in Monroe County. In 2010 all vehicles purchased by the Sheriff's Office were equipped with E85 flex fuel capabilities to promote cost-effective fuel consumption for the Sheriff's fleet. Also, work progressed in collaboration with the Public Safety Department on the 911 Computer Aided Dispatch project, which includes the Records Management System and Jail Management System. In 2011 the Sheriff's Office intends to institute video visitation in conjunction with law enforcement partners to gain operational efficiencies throughout the Monroe County Law Enforcement community.

CONCLUSION

The 2011 County Budget is balanced and fiscally responsible. Non-mandated spending is held below the rate of inflation, the property tax rate is stable at \$8.99, and quality of life services are responsibly maintained. The Multi-Year Forecast section of this document demonstrates that Monroe County is deficit-free in 2011, but may face budget obstacles in coming years. However, County Executive Brooks' steadfast commitment to fiscal responsibility has set an outstanding precedent that will ensure the County is well positioned to overcome any challenges the future may hold. As a result, we are confident that Monroe County will continue to experience economic stability in the years to come.

Creating jobs and enhancing our economic vitality and quality of life is our continued goal. Monroe County is a great place to live and a great place to do business.

Monroe County Today

As of July 2009, the U.S. Census Bureau estimates Monroe County's population at 733,703 residents. A business-friendly infrastructure, a community centered on partnership and collaboration, nationally-ranked colleges and universities, four-season weather and affordable housing are just a few of the many reasons people locate in Monroe County. A strong industrial history, emerging technology sector and an emphasis on high quality services, including higher education, ensure a technically sophisticated and reliable workforce.

Monroe County has an intricate transportation system designed to allow residents the freedom to travel across the county with ease. The average commute time for residents is 22.6 minutes. Multi-modal transportation is also available in Monroe County, at the Greater Rochester International Airport (GRIA), Amtrak and Rochester Genesee Regional Transportation Authority bus service. The Greater Rochester International Airport is the gateway to Rochester for those visiting the area for business or leisure and was recognized in 2010 by the travel website CheapFlights.com as being one of the Top 15 Most Affordable Airports in the U.S.

Seven exceptional colleges and universities provide quality educational opportunities for students from throughout the Greater Rochester area, New York State, the nation and the world. These world-class institutions help support the local economy and bring a talented workforce of professionals into the community. The *US News and World Report* ranks The University of Rochester's Simon School of Business as one of the top 30 business schools in the country (April 2010).

Businesses locating here can benefit from some of the most competitive incentive programs available. Monroe County offers a wide variety of financing programs and incentive packages for businesses looking to expand or locate here. Large corporations, small companies and start-ups all benefit from the area's excellent educational resources, skilled and knowledgeable workforce, available and convenient infrastructure, and economic development programs, while enjoying an outstanding quality of life.

In addition, homeownership is affordable in Monroe County. A variety of urban and suburban neighborhoods offer an array of housing options at reasonable prices. From downtown lofts to suburban subdivisions to rural farmhouses, high quality housing is within reach for Monroe County residents. According to the National Association of Realtors, median home prices for the metropolitan area remain well below the national median. In fact, when compared to other metropolitan areas throughout the country, the Rochester area ranks among the most reasonably priced.

Economic Profile of Monroe County

Until the last decade, Monroe County's economy was dominated by major manufacturers. As these companies restructured and transitioned, their highly skilled workers fueled the growth of numerous small and medium-sized firms in a range of industries. Today, 97% of the region's job growth is in small business, 70% of the companies in Monroe County have less than ten employees, and Monroe County's manufacturing workforce is the largest of any county in New York State excluding the New York City region (NYS Department of Labor).

Larger companies such as Xerox and Carestream Health continue to play an important role in Monroe County's economy. Xerox invested \$59 million in a new 120,000 square foot toner plant in Webster that began production in September 2007. Also in 2007, Carestream Health acquired Eastman Kodak's Health Group. This \$2.3 billion acquisition makes Carestream the leading global provider of innovative medical imaging and health care information technology solutions, and Monroe County now serves as the world headquarters for Carestream. In 2010, Carestream

invested \$8 million in headquarter facilities renovations and global data center electrical utility upgrades.

The region's economic vitality is energized by small and medium-sized businesses, including manufacturers like Harris RF Communications, which in 2010 began a \$46 million project to consolidate existing operations to an 84 acre campus in Monroe County; Rochester Midland, which will expand operations in Monroe County as part of a \$13 million project; telecommunications firms like PAETEC and Frontier; biotech firms such as Vaccinex and VirtualScopics; and information technology firms like Paychex. *Computerworld* magazine named Paychex one of the top 100 workplaces for information technology (IT) professionals. *Fortune* magazine lists Paychex and Wegmans Food Markets among its Top 100 Best Places to Work. Dixon Schwabl was ranked #1 among Best Small Companies to Work for in America in 2008 and 2010 by the *Great Place to Work Institute*; ESL Federal Credit Union was ranked #12 among Best Medium Companies in America in 2010. The University of Rochester, according to *The Scientist* magazine, was rated among the top 10 non-profit institutions in the nation in the magazine's annual ranking of "Best Places to Work" for scientists in the life sciences.

Monroe County's higher education and medical services sectors continue to drive economic growth and job creation in the community. Within the next decade, new research and patient care investments will change the footprint of the University of Rochester Medical Center (URMC) as it aims to become one of the top 20 academic medical centers in the nation. The plan calls for investing \$500 million over the next several years in new facilities, technology and strategic recruits. By 2015, the Strategic Plan will result in the hiring of 771 new staff at the Medical Center. A Center for Governmental Research (CGR) study estimates the plan will also result in the creation of an additional 1,000 permanent jobs in the community and the capital projects will sustain on average 1,400 construction jobs per year between 2008 and 2012. CGR also estimates that by 2015, research funding at URMC will increase by approximately \$50 million over current levels.

Recent success stories include the \$72 million Park Point retail/residential project adjacent to the Rochester Institute of Technology, which was completed in August of 2008, the \$22 million Wegmans Culinary Innovation Center which opened in July of 2009 and the \$42 million ESL Federal Credit Union headquarters which opened in May of 2010.

The most tangible evidence of Monroe County's longstanding leadership in technology and innovation is the number of patents issued to inventors living in the Rochester area. *Forbes* magazine ranked Rochester "1st in innovation" with the highest number of patents issued per worker. On a per capita basis, Rochester has ranked third in the nation for number of patents issued.

International trade by area exporters continues to be a significant component of the area's economic activity. Regional exports are estimated at over \$5 billion. Rochester is the second largest exporting region in the state (New York City is the largest). With four approved foreign trade zone sites in Monroe County, the Monroe County Foreign Trade Zone (MCFTZ) has been a catalyst for local export activity since its establishment in 1987.

Quality of Life

Monroe County is a dynamic, historically rich and culturally diverse metropolitan community, and the third-largest urban area in the State of New York. This high-tech community has also preserved many links with the past as it claims more sites on the National Register of Historic Places than any other city its size.

Monroe County is recognized nationally for its leadership in arts and culture. The community's vibrant cultural district includes: the world-renowned Eastman Theatre and Eastman School of Music, which was ranked as one of the Top 10 Music Programs by the Fiske Guide to Colleges (2011); Memorial Art Gallery; Susan B. Anthony House; Rochester Museum and Science Center; and the George Eastman House International Museum of Photography and Film. Strong National Museum of Play is ranked as one of the top ten children's museums in the nation, according to *Child Magazine* and is home to the National Toy Hall of Fame. In addition, Monroe County's Seneca Park Zoo is one of the top family attractions in the area.

Monroe County is home to professional sports teams in baseball, hockey, soccer, indoor football, lacrosse, basketball and hosts the Buffalo Bills Training Camp. In 2009, *Street & Smith's Sports Business Journal* ranked Rochester in the "Top 10 Minor League Sports Markets in America". The prestigious Oak Hill Country Club has ranked among "America's 100 Greatest Golf Courses" by *Golf Digest* magazine and has hosted some of golf's premier events including the Ryder Cup, the PGA Championship, the US Amateur Championship and most recently, the Senior PGA Championship. Locust Hill Country Club has hosted the Wegmans LPGA for 30 years, and in 2010 served as the host for the LPGA Championship, one of four "major" tournaments on the LPGA schedule.

According to VisitRochester, Monroe County's tourism promotion agency, over 20,000 people are employed in tourism-related industry. In 2009, tourism generated more than \$887 million for the Monroe County economy. Monroe County hosts a number of festivals that attract thousands of tourists to the region each year, including the annual Lilac Festival, Rochester International Jazz Festival and the 360|365 Film Festival.

Monroe County is known for its extensive parks system, one of the most beautiful and scenic in the nation. The county operates 21 parks with nearly 12,000 acres of parkland. Four season outdoor recreation opportunities in the region range from sailboat racing and deepwater fishing on Lake Ontario; camping, hunting and skiing in the Bristol Hills; and windsurfing and boating on the Finger Lakes. Numerous Finger Lakes wineries boast wines that are among the best in the world. The climate of the Finger Lakes is particularly well-suited to white wine production. The area is also home to the New York Wine and Culinary Center, founded by Constellation Brands, Wegmans Food Markets, Rochester Institute of Technology and the New York Wine and Grape Foundation.

Monroe County continues to excel and grow as our community moves forward. Our future is bright with opportunity.

Monroe County Legislature
Office of the President

JEFFREY R. ADAIR

PRESIDENT

December 20, 2010

Dear Taxpayers:

On December 14, the County Legislature approved the proposed 2011 County Budget. The 2011 budget is an impressive accomplishment especially during this time of unprecedented economic difficulty. By offering stable property taxes and continuing to provide quality public services, the interests of our families and businesses are put first.

Facing the difficulty of dealing with a budget in which 82% has already been spent by New York State in mandates, the County has kept the interest of our taxpayers at the forefront, keeping the remaining 18% below the rate of inflation. The combined effort of strict cost controls and the continued streamlining of County services have allowed the County to control our non-mandated spending in accordance with the 2007 Taxpayer Protection Act.

This balanced budget reduces the size of government without cutting quality-of-life services. County Executive Brooks has continued to keep the property tax rate stable at \$8.99 per \$1,000 of assessed value since 2008. Monroe County is among only four of New York State's constituent counties to have not raised its property tax rate since 2004. This budget proves to you, the taxpayers, that you have the attention of your local government and that we are committed to putting your interests first.

The highest priority of the Republican Majority in the County Legislature is to serve and protect the taxpayers of this great community. We are proud to join the efforts of County Executive Maggie Brooks and her capable team of financial experts to produce a 2011 Budget that protects taxpayers and preserves our quality of life services. We look forward to cooperatively exploring new initiatives and efforts that will produce long-term cost savings in Monroe County.

Sincerely,

A blue ink signature of Anthony J. Daniele, written in a cursive style.

BUDGET PROCESS

Budget Preparation and Development

The procedures governing the preparation, submission and adoption of Monroe County's annual budget are stipulated in Article IV of the County Charter and Article VI of the Monroe County Administrative Code. The development of the capital budget involves a slightly different process and timing, as also stipulated in Article IV of the Charter.

Budgeting is a year-long process. In January of each year, the Chief Financial Officer and Director of Management and Budget brief the County Executive on the financial outlook for the forthcoming and successive budget years. After consultation with the County Executive, detailed budget instructions and specific budget targets are issued to operating departments and authorized agencies by mid-June to guide the preparation of the budget development process. In June and July, department heads and authorized agencies assess department/agency needs, prepare their respective operating budget requests and submit them to the Office of Management and Budget (OMB) on or before a set date in July. OMB personnel, in continued consultation with department staff, analyze budgets during the months of July through October. Many decisions are impacted by federal, state and local changes, which make it imperative to use the latest and most accurate information available before finalizing the budget. Final budget decisions are made by the County Executive, who prepares a proposed budget for submission to the County Legislature on or before November 15th.

Budget Adoption

Following submission of the budget to the County Legislature, the Legislature must meet to deliberate on the budget and also must hold at least one public hearing prior to budget adoption. If the Legislature passes the budget as proposed, no further action is required on the part of the County Executive. If the Legislature changes the budget, the changes must be submitted to the County Executive for her consideration. The County Executive then has 48 hours to approve or disapprove each of the legislative changes. The Legislature can override a County Executive veto within the next 48 hours with a three-fifths majority vote.

If a budget has not been passed on or before the second Tuesday in December, the Legislature must meet every day until the budget is passed or until December 16th, whichever occurs first. If the budget is not passed by December 16th, then the budget as submitted by the County Executive, with any legislative changes agreed to by the County Executive, becomes the adopted budget for the next year. The Monroe County budget takes effect January 1st.

Budget Amendments

During the course of a year the budget is routinely amended. The major reasons are to accept grant funding and to respond to unanticipated program requirements which may necessitate changes of authorizations from one portion of the budget to another. Estimated grant funding may be budgeted through the normal cycle in anticipation of grant funding of a program, but when actual grant amounts are verified through the course of a year, the budget has to be amended to account for exact amounts. Budget amendments which involve the acceptance of additional revenues and corresponding changes of expenses or involve a transfer of expense appropriations between funds have to be approved by the County Legislature. Budget amendments which involve a transfer of expense appropriations among line items between departments may (if they are \$10,000 or less to a particular line item) be approved administratively with the approval of a department head and the Budget Director. Major transfers between departments (amounts in excess of \$10,000 to a particular line item) require the approval of the County Legislature. Since amendments to the budget are done routinely, the year-to-year comparison in the department budgets and in the financial detail is made from the amended previous year budget (rather than the original adopted) to the new budget.

During the budget year, quarterly reviews of key appropriation and revenue accounts deemed critical to maintaining a balanced budget are prepared by OMB and submitted to the Legislature. On the basis of these reviews, OMB, in cooperation with the Controller, prepares a fourth quarter reallocation to revise appropriations for review and approval by the Legislature in anticipation of the current year close-out.

Capital Budget

Monroe County has a six-year plan for capital improvements. This plan is updated each year in the form of a Capital Improvement Program (CIP). As required by Article IV of the County Charter, the administration is required to submit an updated CIP to the Legislature by May of each year, and the Legislature is required to approve the plan on or before the first regularly scheduled meeting in July. The first year of that six-year plan becomes the Capital Budget for the next fiscal year (beginning the following January).

Future implications of the CIP projects on the operating budget are noted in the CIP document. Generally, the implications of capital projects on the operating budget have been to either reduce the cost of maintenance or avoid future increases in the cost of maintaining facilities. For some projects, the implication has been to increase costs because of additional staffing and other expenses required to operate expanded facilities. Other projects result in additional operating costs, but generate additional operating revenues which offset these costs.

The CIP document is separate from this operating budget document. For more information, see the "Capital Program/Debt Service" analysis toward the end of this budget document.

ORGANIZATION STRUCTURE

The department is the principal organization level of the county. The organization of county departments is depicted in the chart on the preceding page. Departments are identified either as operating departments, which provide direct services to citizens, or staff departments, which perform functions relating to the support of the operating departments. The County Clerk, District Attorney and Sheriff are directly elected by popular vote as are the County Executive and the 29 County Legislators.

Departments may be separated into divisions, as necessary, to reach a level which facilitates analysis and understanding. The department level, however, is the level at which the County Legislature actually authorizes appropriations. Within each department and division, unique funds centers are established to identify specific activities of the department. The number of divisions and funds centers presented generally varies according to a department's size and complexity.

The breakdown for a portion of the Planning Department is shown below. Note that the department is identified by a two-digit number shown in parentheses. For the departmental presentations, divisions are identified by a four-digit number and funds centers are identified by a ten-digit number.

FINANCIAL STRUCTURE

The county's financial system is organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise the assets, liabilities, fund balance, revenues and expenditures. The following fund types and account groups are used by the county.

GOVERNMENTAL FUND TYPES

Governmental Funds are those through which most governmental functions of the county are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the county's governmental fund types:

1. The General Fund is the county's principal operating fund and includes all operations not required to be recorded in other funds.
2. Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or capital projects) that are legally restricted to expenditures for specified purposes. The county's Special Revenue Funds include the following:
 - The Library Fund accounts for the activities of the Monroe County Library System, which exists to serve member libraries in the county.
 - The Road Fund accounts for certain public works functions relating to maintenance and improvement of county highways.
 - Special Grants Funds includes programs mandated and reimbursed by the Federal or State government.
3. The Debt Service Fund is used to account for reserve funds established for the retirement of outstanding debt, as well as activities in the county's coupon trust accounts. Other than for the proprietary funds, payments of principal and interest on bond anticipation notes, serial bonds, and capital notes are recorded and appropriated in this fund.
4. Capital Projects Funds are used to account for financial resources to be used for the acquisition of major equipment items and the construction of major capital facilities other than those accounted for in the proprietary funds.

PROPRIETARY FUND TYPES

Proprietary Funds are used to account for ongoing organizations or activities which are similar to those often found in the private sector. The following proprietary funds are used by the county:

1. Enterprise Funds are used to account for operations that provide services to the public and are financed primarily by user charges. The county's enterprise funds include Monroe Community Hospital, Pure Waters, the Airport and Solid Waste.
 - Monroe Community Hospital is a health-related facility for the care and treatment of the chronically ill.

- Pure Waters includes the financing of wastewater management public improvements, as well as operations and maintenance services which benefit the properties against which user fees are charged.
 - The Greater Rochester International Airport is served by a number of major air carriers and commuter lines providing air carrier services, as well as other related facilities and services. The facility, which is owned by the county, has been leased to the Monroe County Airport Authority, but under the Lease and Operating Agreement, continues to be operated by the county through the Airport Enterprise Fund.
 - Solid Waste finances the county's waste disposal and recycling operations.
2. Internal Service Funds are used to account for special activities or services provided by one department of the county to other departments or to other governments on a cost reimbursement basis. Included in this category are the following:
- Building Operations provides for the operation and maintenance of county-owned buildings including the Hall of Justice, County Office Building, Public Safety Building, Civic Center Complex and the Health and Human Services Building.
 - Central Services provides interdepartmental and public mailing services.
 - Fleet Services provides for and services county-owned vehicles and motor equipment.
 - Information Services provides central information services, including computer and telephone systems and support.
 - Risk Management provides for the county's insurance requirements for general liability, workers' compensation and unemployment coverage. These funds are also used to account for certain claims and judgments.

BASIS OF BUDGETING/ACCOUNTING MEASUREMENT FOCUS

The Monroe County budget is prepared on a cash basis. Governmental funds are accounted for using the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized when measurable and available to pay current liabilities. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on long-term debt which are recorded as expenditures when paid, and compensated absences which are recognized as a liability in the applicable fund when due and payable.

Proprietary funds are accounted for using the accrual basis of accounting. Under this basis of accounting, revenues are recognized when earned and expenses are recorded when the liabilities are incurred.

BUDGET FORMAT

The budget document consists of two major parts: the narrative program description or "Department" budget and the line item or "Financial Detail" portion.

The program budget is organized by elected official. Departments under each elected official are presented in alphabetical order. For each department, an organization chart is presented which shows the breakdown of the department into its organizational components (divisions). For small departments that are not subdivided organizationally, the organization chart reflects the primary functions, or activities of the department. Pie charts for each department display operating budget appropriations and grant appropriations by division or category. In addition, there is a pie chart depicting the percentage of Mandated vs. Non-Mandated Services performed by each department along with a general description of these services.

Budget information is presented for each major organizational component within a department. While most budget pages follow the format described below, the format for some pages may vary slightly to include fee schedules or relevant statistical information in the form of bar charts, additional pie charts, or tables. Generally, the page format contains the following components:

Descriptions of each major organizational component summarize the functions of the department or division and include relevant information regarding any recent or proposed organizational or programmatic changes. Descriptions may also be provided for the department's funds centers.

Mission, Accomplishments and Objectives detail the philosophy of each department as well as what the department has accomplished in 2010 and the goals for 2011.

Budget Summary (financial information) presents appropriations by major category of expense, revenue by major source, and the net county support required by the department. Depending on the structure of the department, budget summaries may also appear for each division within the department. If a department has grants, appropriations are segregated by grant and operating budget appropriations. If no grants exist in the department, the budget total presented reflects the operating budget appropriations only. The net county support amount is the difference between a department's appropriations and its anticipated revenue and represents the amount of support required from property taxes and other general fund revenues. Financial data is presented for the 2010 budget as amended and the 2011 budget as proposed.

Performance Measures present data about the organization's input, output, service quality and efficiencies. Measures for the previous year, current year and budget year are presented.

Staff tables (a separate section in the back of the book) show the personnel for 2011 by title, number of full time equivalent positions, and pay group. Salary Schedules (a separate section in the back of the book) relate pay groups to annual salary amounts.

The Financial Detail portion of the budget document shows expenses and revenues in a line item format for major organizational components (divisions) within each department. Departments are presented in order by financial system account number. The financial data shows the actual expenses and revenues for 2009, the appropriations and revenues in the 2010 budget as amended, each department's funding request and revenue estimates for 2011, and the County Executive's proposed budget for 2011.

Financial Strategies for Monroe County

1. Maintain Stable Tax Rate

Aggressive efforts to reduce costs and enhance revenues from outside the County Tax Base will be continued, enabling the County to maintain the property tax rate at or below 2004 levels and provide quality services to its residents.

To this end, Monroe County will:

- Pursue cost-saving and revenue-enhancing measures that reduce the need for county taxpayer funding;
- Pursue federal, state, and other funding and financing strategies that reduce the need for county taxpayer funding;
- Pursue legislative reforms at all levels of government that facilitate the county's ability to deliver services efficiently and effectively.

Collaboration with other governments in and outside of Monroe County, as well as with local businesses and educational institutions, is critical to the success of these efforts.

2. Continue Multi-Year Budget Forecasting

The Monroe County budget document will include an annual budget plus a two-year budget forecast. This will assist policy-makers in their assessment of the proposed budget as well as highlight the potential impact of – and opportunities for change in – existing and proposed local, state and federal programs and policies. The net result will be a better basis for decision-making that supports sustainable programmatic and fiscal health in Monroe County.

3. Rebuild County Reserves

A Tax Stabilization Fund will be created and when fully funded will amount to 7.5% of the average annual sales and property taxes accruing to Monroe County. It will be funded with resources deemed available upon the closing of a year. Any or all of this fund may be applied during the annual budget process to stabilize taxes for the same fiscal year and restored to the target level in subsequent budget years as resources permit. This fund will be accounted for and used for General Fund purposes only.

4. Continue Conservative Cash and Debt Management Practices

The county administration's debt policy provides that debt shall be issued to finance capital projects where funding sources are not immediately available. The debt will be structured in the most efficient manner to limit the impact on the taxpayer and will take payment of existing debt obligations into consideration as well as the total projected operating cost of the county. The use of cash capital through the operating budget will be utilized to finance projects with a short useful life or with costs estimated at \$100,000 or less or for portions of the cost of other projects as financial and budgetary conditions permit without placing undue pressures on the taxpayers. Any and all debt issues will be structured and sold in accordance with sound debt management practices.

5. Maintain Appropriate Internal Controls

The system of internal controls will be maintained and monitored for enhancement opportunities to ensure compliance with all applicable laws and prudent stewardship of public funds. All employees will be responsible and accountable for the safekeeping of public assets and a professional internal audit function will be maintained to monitor the system of controls.

6. Enhance Economic Development Efforts

Economic development efforts will be fully coordinated and aggressively advanced in order to strengthen the underlying economic fundamentals of Monroe County. These efforts will contribute to Monroe County's ability to retain and attract business, labor and residents, maintain a stable tax rate and provide quality services to its residents.

7. Track Performance Towards Goals

Performance measures and targets will be established to measure, manage and promote attainment of Monroe County's financial goals.

MONROE COUNTY PROCUREMENT POLICY

1. **Background**

This policy has been developed to ensure that Monroe County is in compliance with New York State General Municipal Law concerning the procurement of goods and services as defined herein.

In accordance with New York State General Municipal Law §103, all purchase contracts involving an expenditure of more than \$20,000¹ and all contracts for public works involving an expenditure of more than \$35,000² must be publicly bid. This policy prescribes the manner in which expenditures for purchase contracts and public works contracts not subject to public bidding requirements are awarded, as well as contracts for professional services, which are not subject to public bidding requirements, and which are subject to approval by the County Legislature and/or the County Executive. This policy supersedes any policy previously issued and approved.

2. **Guidelines for Securing Competitive Quotations for Purchase and Public Works Contracts**

All County employees involved in the procurement process shall follow this policy for all purchase and public works contracts less than the public bidding limits of \$20,000 and \$35,000, respectively.

All purchases of \$25 and less may be made directly with petty cash, subject to the Petty Cash guidelines established by the Monroe County Controller.

Purchases of items above twenty-five dollars (\$25) up to and including five hundred dollars (\$500), or up to and including one thousand dollars (\$1,000) with the prior approval of the Purchasing Manager, may be made at the discretion of the various departments. The purchase of infrequent and limited services, such as repairs and maintenance, above twenty-five dollars (\$25) up to and including one thousand dollars (\$1,000) may be made at the discretion of the various departments. A cost quote(s) shall be obtained before any purchase. This policy recognizes that the benefits of cost savings from competition can be quickly outweighed by the costs inherent in seeking multiple quotations.

For all purchase and public works contracts in excess of \$1,000 and below the public bidding limits, the County will seek to secure at least three (3) competitive quotes, and shall make an award based on the lowest responsive and responsible quote. Any deviation from this policy shall have written justification from the Purchasing Manager and shall be included in the official file.

3. **When Competitive Bidding May Not Apply**

In accordance with General Municipal Law, there are instances in which Public Bidding is not required. These instances include:

- purchases through New York State contracts
- purchases made by Monroe Community Hospital (MCH) pursuant to Public Health Law
- items to be purchased from a "sole source"
- items procured through a "true lease"
- surplus supplies, materials or equipment purchased from another governmental or public benefit entity
- supplies, materials or equipment purchased from state correctional institutions or from qualified charitable not-for-profit agencies for the blind or disabled
- purchases or public works required in an emergency, subject to the requirements of the emergency purchase order procedures
- standardization of an item as approved by the County Legislature
- energy performance contracts
- professional services contracts

¹ Chapter 56 N.Y. Laws of 2010

² Chapter 494 N.Y. Laws of 2009

4. **Professional Services**

Professional services are not subject to public bidding requirements but are subject to approval by the Monroe County Legislature and/or the County Executive. Professional services are services which require special or technical skill, training or expertise that do not readily lend themselves to competitive bidding. General guidelines for determining professional services are as follows:

- a) Whether the services are subject to State licensing or testing requirements;
- b) Whether substantial formal education or training is a necessary prerequisite to the performance of the services;
- c) Whether the services require a relationship of personal trust and confidence between the contractor and municipal officials.

For all professional services agreements less than \$5,000, a Request for Proposal (RFP) is not required but may be used when practical.

For all professional services agreements above \$5,000 and less than \$25,000, an RFP or Request for Qualifications (RFQ) is preferred and should be used when practical. Other forms of soliciting competition, provided they offer an objective basis upon which to award said contracts, may be utilized upon the prior approval of the Purchasing Manager.

For all professional services agreements greater than \$25,000, an RFP or RFQ is required unless waived by the County Executive or her designee. A waiver may be issued only in the event of a public emergency, as defined under General Municipal Law or the New York State Defense Emergency Act. The County Executive or her designee shall notify the Monroe County Legislature within 90 days of the issuance of any waiver.

Professional services contracts in excess of \$5,000 are subject to approval by the Monroe County Legislature.

5. **Exception for Federal and State Funding**

Contracts for the procurement of all supplies, services, materials and equipment entered into by Monroe County that involve the expenditure of federal or state funds, shall be conducted in accordance with any mandatory applicable regulations of the funder.

Exceptions to this policy shall only be made upon the approval of the County Attorney.

MONROE COUNTY REAL PROPERTY TAX

Several factors influence the amount of county tax that a real property owner in Monroe County will pay:

- **Assessed Value** is the value placed on the property by city or town assessors. As a result of different assessing practices in each jurisdiction, there is a different relationship of assessed value to full value among jurisdictions within the county. In order to apportion the county tax levy across jurisdictions, the different assessed values are "equalized" to full value.
- **Full Value** represents the estimated market value of all the real property in a municipality at some prior point in time. Full value is based on surveys conducted by the State Board of Real Property Services in which actual field appraisals are performed. From these surveys, equalization rates are established by the state to convert assessed value to full value. As a result of changes in assessed value and equalization rates during this past year, full value has increased in Monroe County by approximately 1.0%.

It should be noted that a change in full value does not mean that individual properties have gained (or lost) real market value. Full value is a measurement tool used to compare properties from one jurisdiction to another. The importance of full value is its use in equitably apportioning the county tax levy.

- **County Tax Levy** is the total amount of money to be raised by the general real property tax. The share of the tax levy for each jurisdiction is based on its percent of the county's total full value. For example, Penfield represents 7.10% of the county's full value for 2011 therefore, 7.10% of the 2011 county tax levy is allocated to Penfield.

Once the 2011 county tax levy is determined, the full value tax rate is calculated by dividing the tax levy by the total full value expressed in thousands of dollars.

<u>Tax Levy</u>		<u>Full Value</u>		<u>F.V. Tax Rate</u>
\$349,088,376	÷	38,830,742,624	=	\$8.99
				per \$1,000 of full value

Full value tax rates can be compared from one jurisdiction to another, while assessed value tax rates cannot. The assessed value tax rate is the rate that appears on a homeowner's tax bill and is used to compute the tax bill. The tax bill is computed by dividing the assessed value of a home by 1,000 and multiplying that number by the assessed value tax rate. Sales Tax Credits, the share of total sales tax collections credited to towns, are then applied to reduce the county property tax liability for residents of towns outside villages.

MONROE COUNTY CONSTITUTIONAL TAX LIMIT

The Constitutional Tax Limit of the county is determined in accordance with Section 10 of Article VIII of the New York State Constitution. This limits the amount counties may raise in real estate taxes in any fiscal year, exclusive of debt service, to 1.5% of the five-year average full value of taxable real estate of the county. In the calculation, the Sales Tax Credit to towns is an offset to the tax levy for operating purposes.

This new law adds Section 495 to the Real Property Tax Law, requiring counties, cities, towns, villages and school districts to attach to their budget an Exemption Report. The Exemption Report presentation is an effort to provide increased transparency to taxpayers in regard to the amount and impact of exemptions on the local tax base.

Sales Tax Sharing Agreement Distribution

¹ Of the \$83 million distributed to towns, \$55 million is via tax credit.

Sales tax sharing is permitted by New York State law. Forty-three of 57 counties share sales taxes with local governments. Only five counties, including Monroe, include school districts in their distribution agreements. Monroe County shares 100% of received sales tax revenues with local governments and school districts. In 2008 Monroe County opted to participate in the New York State program to intercept sales tax revenue to cover the local cost of Medicaid. The New York State Tax Commissioner determined that 1.61% of Monroe County sales tax would be intercepted to pay for Medicaid. The remaining 2.39% of the local tax rate along with a supplement fulfills Monroe County's commitment to the current sales tax sharing agreements.

DISTRIBUTION FORMULAS

Sales tax receipts are divided into two separate components for distribution calculation purposes. The two components, as noted in the Unallocated Revenue portion of the budget (12-1209) are the **"First three cents"** and the **"Additional one cent"**.

"First three cents" Component (Morin-Ryan Act Formula)

- The 3% tax component is subject to a complex distribution formula whereby approximately 82.4% is distributed to political sub-divisions within the county and approximately 17.6% is retained by the county to finance the county budget. The Morin-Ryan Act of 1985 details the current formula which included the following stipulations:
 - The City of Rochester receives half the annual growth in sales tax collections.
 - The remaining half is divided among the county, city, towns (including sales tax credits up to \$55 million), villages and suburban school districts, with the villages and school districts "held harmless". According to this "hold harmless" provision, the county must compensate suburban schools and villages for any portion of the distribution they may have lost under the Morin-Ryan Act formula.
 - The city share of sales tax may never exceed 35.63% of total collections.

"Additional one cent" Component (Parity Formula)

- The additional 1% tax was fully enacted in March 1993.
- Beginning in December 1999 (calendar year 2000), after distributing 9.25% of the additional one cent to suburban school districts (5%), towns (3%) and villages (1.25%), the remaining balance (90.75%) is divided between the City of Rochester and the county so that when added to the **"first three cents"** component, the total share (4 cents) for the city and county is equal.

MONROE COUNTY HOTEL ROOM OCCUPANCY TAX

The current Hotel Room Occupancy Tax levied by Monroe County is 6% (This is levied in addition to the retail sales tax). The tax is collected from hotel operators quarterly based on the calendar year.

The revenue derived from the tax is allocated to support agencies, corporations, associations and services whose activities promote or enhance tourism and quality of life in Monroe County. State law provides local authority for distribution of revenue from the general fund.

DEPARTMENT: Aviation (81) Greater Rochester International Airport

DEPARTMENT DESCRIPTION

The Greater Rochester International Airport is a major commercial air facility in New York State. The county leases the Airport's facilities to the Monroe County Airport Authority ("MCAA") which sublets land and terminal space to airlines, concessionaires and various other parties. The Aviation Department is responsible for day-to-day operations of the Airport including administrative services, building and field maintenance, security and emergency response to the MCAA under contract. The Airport is self-funded and requires no financial support from the county general fund. The Airport facilities include the three-story garage used as long term parking, three on-Airport surface lots used for short term parking, weekly parking, employee parking and Airport Shuttle Lot parking, as well as three lots off-Airport which are used for Airport Economy Shuttle Lot parking and overflow parking. The budget presented here is for operating costs provided by the Department of Aviation to the MCAA. All revenue from airlines, concessionaires, parking, etc. is paid to the MCAA and is not shown in this document.

Mission

The Monroe County Department of Aviation provides and operates a safe, secure and efficient air transportation facility for the benefit of the local community, the surrounding region and the air transportation industry to enhance economic well being and quality of life.

DEPARTMENT: Cultural and Educational Services (89)
DIVISION: Monroe Community College (8901)

DIVISION DESCRIPTION

Established in 1960, Monroe Community College ("MCC") is part of the statewide system of 30 community colleges. The primary mission of the community college system is to extend affordable higher education opportunities to citizens.

For the 2010-2011 school year, full time tuition will increase \$100 to \$3,000 for resident students. Tuition revenue now supports 47.5% of the net college budget. Monroe County and the State of New York are primary funders for the remainder of the budget. The county contribution increases \$1,200,000 while the state base aid decreases \$415 to \$2,260 per student. The state aid level is 7.9% under the 40% state support levels contained in the community college funding regulations. MCC's projected enrollment for 2010-2011 is 16,643 full time equivalent ("FTE") students; 14,528 FTEs are projected at the Brighton campus, which includes the Applied Technology Center and Public Safety Training Facility students and 2,115 FTEs are projected at the Damon City Center.

Each year there is an operating budget review process. The College Board of Trustees and the College President submit the operating budget to the Monroe County Executive and to the County Legislature for review and approval. Prior to the beginning of the college fiscal year, which begins in September, the budget is reviewed and final appropriations are authorized by the Legislature. **The county contribution to MCC was approved by the Monroe County Legislature through Resolution #192 of 2010, which was adopted on August 10, 2010.**

Monroe County is also responsible for sponsor support associated with residents who attend other New York State Community Colleges outside of the county. Likewise, other counties sending students to MCC are obligated to support their students.

This cost center also includes debt service expenses generated by MCC capital projects authorized under the county's Capital Improvement Program.

DIVISION: Libraries (8904)

DIVISION DESCRIPTION

Monroe County funding for Libraries is tracked in two cost centers: the Monroe County Library System ("MCLS") and the Rochester Public Library Central Services. The annual budget allocation is contained in a separate library fund.

Libraries in Monroe County are part of an independent federation united by a contract. The Monroe County Library System provides centralized services to all city, town and village libraries. MCLS was established in 1952 and is managed by an 11-member Board of Trustees and a Director under contract with the Board. The Rochester Public Library ("RPL") and its Board share the same Director. The RPL includes the Central Library and city community branches. Monroe County provides the majority of the funding to support the Central Library. Under a 1968 agreement between Monroe County and the City of Rochester, RPL provides central library services to MCLS.

MCLS and the Central Library have moved aggressively to utilize new technologies to expand the depth and breadth of access to quality information in the County.

2010 Major Accomplishments

- Presented the family history conference, "Coming Home to Your Roots" at the Central Library. This one day conference was attended by more than 300 people and will become an annual event.
- Continued to position the Central Library as the cultural center of downtown through increased programming, which included a highly successful series of Sunday history programs; two Big Read initiatives, one of which was in partnership with the Seneca Park Zoo; a successful collaboration with Rochester's Sister City, Bamako Mali, on a photographic exhibit; a successful partnership with the Friends of Mt. Hope Cemetery which now provides Sunday History programs free of charge; a continued partnership with the Rochester International Jazz Festival which brought five performances and hundreds of people to the Central library in June 2010.
- MCLS partnered for the second year with Monroe County and the County Executive's Office to sponsor a county-wide summer reading program. This partnership developed a multipage insert in City Newspaper advertising summer activities at the MCLS libraries.
- Library use continued to climb in 2010, with record attendance and borrowing being set throughout the system. MCLS libraries had over 3.6 million visitors and almost 9.4 million items borrowed.
- Introduced a new telecommunications service, Freedom Calls, targeted at families of service men and women. The service, now expanded to include Skype, provides a private video teleconference for families wishing to talk to and see their loved ones.
- Worked with Rochester Historical Society ("RHS") on their move to the Central Library. Opened in February 2010, the RHS brings more than \$40,000 a year in rental revenue to the Central Library in addition to sharing expertise on the preservation of Rochester and Monroe County history. The second floor of the Rundell Building is fast becoming a regional history center due to the combined efforts of the RHS and the Central Library Local History Department.

2011 Major Objectives

- Celebrate Rochester Public Library's 100th anniversary in 2011, hosting a series of programs and events to celebrate the occasion.
- Examine role of Technical Services in order to achieve operational efficiencies and improve customer service.
- Analyze the role of Central Libraries throughout the county and develop a strategic plan utilizing the established best practices that will work for our community
- Continue to develop the Central Library's role in the development of new formats and digital content for the Monroe County Library System.
- Upgrade the MCLS integrated library automation system.
- Establish revenue generating sponsorships for the MCLS Web page.

SECTION DESCRIPTIONS – APPROPRIATIONS

County General (1209020000)

These appropriations include the Contingency Account, erroneous assessments and other miscellaneous expenses. The Contingency Account provides for unexpected expenses which may arise during the year. The account is established and administered in accordance with Article IV of the County Administrative Code. Expenditures against this account require approval by the County Legislature. Funding will remain the same in 2011 (\$100,000). Erroneous Assessments are repayments of property tax that result from factual or recording errors or failures to comply with certain legal requirements and are budgeted in this expense object along with successful challenges to assessments.

For 2011, expenses include payments to towns, villages, school districts and the City of Rochester whereby the county will distribute the same dollar amount of sales tax funding these municipalities would have received had New York State distributed the entire revenue from the 4% Sales Tax Levy to the county.

Other miscellaneous expenses include costs for memberships by the county in organizations, the costs associated with the issuance of bonds and notes, taxes and assessments paid on county-owned properties acquired after the taxable status date and costs to administer the employee benefit parking program, flexible spending program, prescription drug program and health savings accounts.

Contribution to Other Funds (1209030000)

The Facilities Management Division provides office space, building maintenance and utilities to operating departments. Each building charges user departments for the above services based upon a percentage of space occupied by the users. Generally, reimbursements to the buildings from user departments do not support the entire cost of operating every building. Therefore, a contribution from the general fund is required to balance these Internal Service funds.

Contribution to the Rochester-Genesee Regional Transportation Authority (1209050000)

The county provides assistance to support the operating costs of the Authority's subsidiary, the Regional Transit Service. The level of county assistance is mandated under Article 2, Section 18-b of the New York State Transportation Law as the local match to operating assistance provided by the State of New York.

Debt Service – Water Authority (1209060100)

In 1969, the County Legislature agreed to issue \$27 million in bonds on behalf of the Monroe County Water Authority to finance construction projects. Since that time, the Water Authority annually submits project proposals to the county for inclusion in the Capital Improvement Program. The county has been able to borrow at interest rates lower than the Water Authority would have been able to obtain. The Water Authority repays the county the amount of debt principal and interest costs paid each year by the county on the Authority's behalf; this reimbursement is budgeted as revenue in this division. This agreement helps reduce the cost of providing water treatment and distribution facilities in the county.

Debt Service – Medical Examiner/Lab Building (1209060300)

The Medical Examiner facility was completed in the fall of 1993. The Medical Examiner's Office is the focal point for the investigation, collection, analysis and dissemination of "medicolegal" information for Monroe County and several surrounding counties. The facility provides an improved level of support to meet the needs of physicians, other health care professionals, law enforcement officials and family members of decedents.

Note: Revenues associated with the use of the facility by the Medical Examiner are budgeted as other revenue in this division.

Debt Service – Resource Recovery Facility (1209060400)

The Resource Recovery Facility has ceased operation and is no longer an active part of the county's solid waste management program. Debt service on the construction fund is included in a separate account as an unallocated expense rather than as a solid waste program expense because the facility is inactive. The county's auditor recommended this change in the audit of 1992 financial statements. Appropriated fund balance from the debt service reserve is budgeted to offset the expense.

Debt Service – Greater Rochester Outdoor Sports Facility (1209060600)

The county has incurred debt service expenses for a share of the total cost of construction of the Frontier Field outdoor stadium used primarily by the Rochester Red Wings baseball team. The agreement with the non-profit organization, Rochester Community Baseball, Inc., provides for repayment of this cost from revenues generated by events at the facility. This debt service expense also includes the cost of the purchase of the former outdoor sports facility, Silver Stadium.

Debt Service – Other (1209060200, 1209060500, 1209060700)

Other debt service funding is provided for the Civic Center garage relating to the construction and repair of the garage, Geographical Information System projects and County General account borrowings.

SECTION DESCRIPTIONS – REVENUE

Real Property Tax

This is the tax levied on real estate owners for county purposes. See the Tax Analyses part of the budget for more information on the real property tax.

Property Tax Penalties

This represents the interest charges collected on overdue taxes as well as the interest, penalties and other charges attached to the original tax amount at the tax sale date (precedent to tax foreclosure action).

Payments in Lieu of Tax

The county receives designated payments, instead of taxes, from two major sources; Urban Development Corporation (UDC) subsidized housing projects and County of Monroe Industrial Development Agency (COMIDA) contract agreements. Payments in lieu of taxes serve as an incentive for industrial development and special types of residential construction. The payments change from year to year with the number of COMIDA contracts and the aging of existing contracts for which higher payments are required.

Sales Tax

The current county sales tax levy is 4%. The first 3% is allocated through a complex formula (Morin/Ryan Sales Tax Adjustment Act of 1985) to the county, the City of Rochester, towns, villages and suburban school districts. Effective September 1, 1992 the county, as authorized by state law, increased the sales tax rate in Monroe County by 0.5%. An additional 0.5% was authorized effective March 1, 1993, bringing the rate of increase to a full 1%. Under the current law, authorization for this 1% increase needs to be renewed every two years by the state. The additional 1% is also distributed to all sharing partners, based on prescribed formulas.

Total sales tax receipts are estimated to increase approximately 1.0% above 2010 projected, net of prior period adjustments. The estimated county revenue for 2011 (prior to distribution to sharing partners) is \$82.6 million.

See the Tax Analyses portion of the budget for more information on the sales tax.

OTB Distributed Earnings

The Western Regional Off-Track Betting Corporation distributes 50% of its net revenues among participating counties on the basis of wagering originating in the respective counties. The remaining 50% is distributed based on population.

Interest and Earnings – General Fund

This is interest earned on the investment of funds received prior to the time they are needed to meet current operating expenses. Funds available for investment are provided by revenues such as the property tax and sales tax. The income from temporary investment of funds is a function of both prevailing interest rates and the amount of cash available for investment.

Earning on Capital Funds

This represents interest earned on the investment of funds borrowed for capital projects. Borrowed funds are invested until they are needed to pay project costs. The income from the temporary investment of funds is a function of both prevailing interest rates and the amount of cash available for investment.

Interest & Earnings on Reserve for Bonded Debt

This represents interest earned on investment of Reserve for Bonded Debt balances.

Medicare Part D Reimbursement

Reimbursements from the Federal Government relating to Medicare Part D.

Other Revenue

This category includes revenue from rental of county property, commissions from minor sales not applicable to any specific department and revenue associated with the recovery of municipal tax refunds for erroneously assessed property. In addition, for 2011, federal stimulus revenue, the sale of 2008, 2009, and 2010 property tax liens, reimbursement for retiree reinsurance program and the sale of assets are included.

DEPARTMENT: Finance – Unallocated Expense & Revenue (12)**Division: Unallocated – Insurances (1265 – 1280)**

DIVISION DESCRIPTION:

The Insurances Division serves as a cost center for the financial management of the county's four self-insurance programs: Workers' Compensation, Unemployment, Liability and Dental. These programs are part of a modified self-insured approach used by the county which combines direct payment of judgments and claims with the purchase of certain policies that afford coverage against extraordinarily high claims. The insurance budgets are composed of estimates for direct payments of claims, premiums for policies against "excess claims" and other specific types of liability coverage such as property damage and administrative costs including professional service contracts. While there are no personnel directly assigned to this division, there is a charge from the Law Department for staff time required for the administration of insurance policies and the litigation of cases. The cost of maintaining the county's insurance programs is distributed to departments through interdepartmental charges.

SECTION DESCRIPTIONS

Dental Insurance (1260010000)

Since January 1980, all county employees are able to receive dental insurance coverage as a fringe benefit. In 1996, the maximum annual benefit was increased to \$1,000 per employee and each employee's dependents. In addition retirees also receive the same benefit. This program is self-insured and the cost is charged to each county department as a cost per employee.

Unemployment Insurance (1265010000)

In 1976, amendments to the Federal Unemployment Tax Act extended for unemployment compensation to government employees. The county has chosen to meet these costs by reimbursing the state for the actual costs for benefits paid to former employees rather than paying the state system a 4.4% premium on the first \$7,000 earned by each county employee. The costs of the unemployment benefit self-insurance program are charged back to each county activity based on its share of the total county payroll.

Workers' Compensation (1270010000)

Monroe County is self-insured for routine compensation claims from county employees who have been injured on the job. In addition to the annual appropriation to cover the estimated expense for these claims, the county maintains an insurance policy to meet the expenses of extraordinary claims. The cost of the Workers' Compensation self-insurance program is charged to each department on the basis of the relative cost of claims which each department has experienced in the recent past.

Liability Insurance (1275010000)

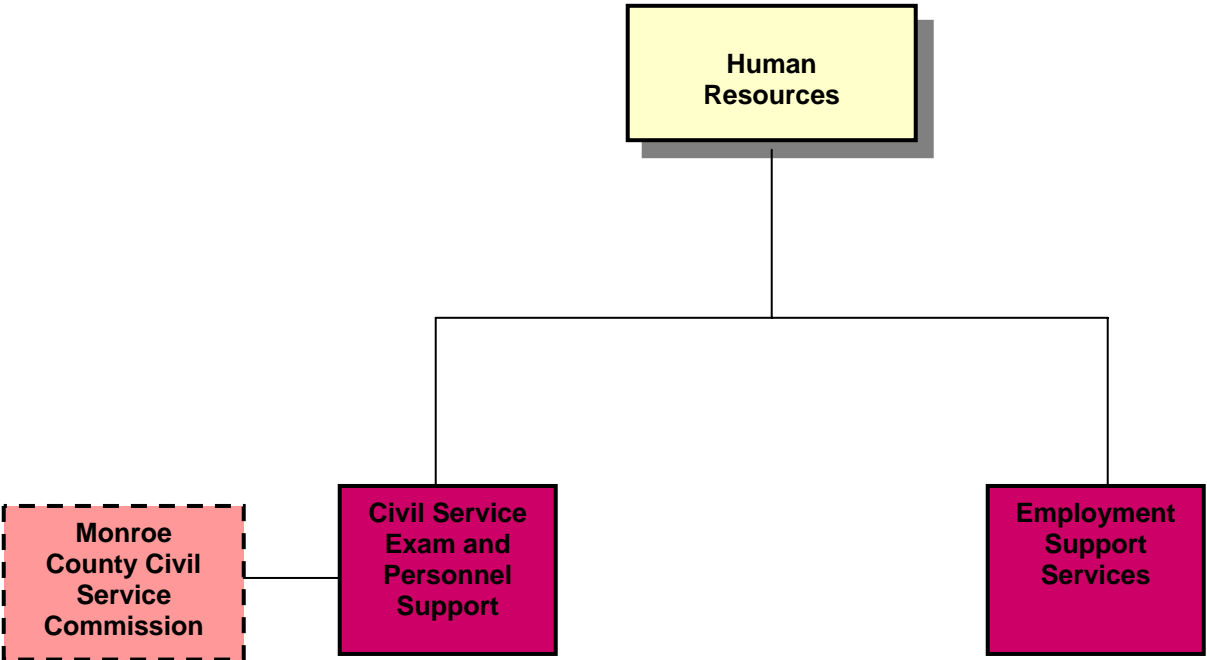

Monroe County is self-insured against routine general and vehicle liability claims, and it maintains an insurance policy which covers only extraordinary claims. This program is administered by the Law Department with the administrative costs charged back to the program. County departments are charged their share of the cost of the total liability program in proportion to their share of the number of vehicles assigned.

Risk Management Fund (1280010000)

The county maintains a risk management fund for payment of tort claims and judgments for which it is self-insured. The budget reflects the estimated insurance premium expense.

DEPARTMENT: Human Services (51)

DEPARTMENT DESCRIPTION

The Department of Human Services ("DHS") has as its goal a common sense human service delivery system that is comprehensive, responsive, coordinated and based on measurable results. DHS provides various forms of assistance and intervention to citizens of Monroe County to assist them in maximizing independence, safety and physical and emotional well-being.

The department is comprised of child, youth and adult development, welfare and mental health services. Mandated and non-mandated offices, services and programs are organized under one leadership and organizational structure to optimize Monroe County's ability to meet and exceed required outcomes and our core priorities: safety, self-sufficiency and healthy development, and effective and efficient utilization of limited resources. DHS is organized into three supervisory divisions: Child and Family Services; Financial Assistance; Administration & Purchased Services.

Mission

The Monroe County Department of Human Services develops, provides and coordinates services for eligible Monroe County residents to assist them in maximizing independence, safety and physical and emotional well-being.

2010 Major Accomplishments

Child and Family Services

- Completed construction of the Monroe County Visitation and Pediatrics Center.
- Implemented Phase I of the Building Bridges demonstration project, designed to reduce the length of stay in costly levels of residential foster care.
- Secured an Office of Children and Family Services ("OCFS") Community Reinvestment Grant, in partnership with Hillside Children's Center, to further develop the alternatives to detention and placement continuum of services available locally.

Financial Assistance

- Completed first full year of Quality Control Peer Review program. Supervisory staff has completed over 1,400 follow up "peer reviews" of cases processed by other teams. This laid the ground work for submission and approval of our Case Supervisory Review plan. Beginning in August, team supervisors reviewed a random sample of cases each day, replacing our current method of 100% case review. This enabled supervisors to conduct a thorough case review and provide feedback and training to their line staff.
- Implemented a walk-in appointment system for Public Assistance and Food Stamp applications. Reduced overall waiting room traffic as well as individual wait time. Ineligible public assistance applicants are notified up front and routed to other program areas to determine eligibility.
- Completed the implementation of the decentralization plan for the Fair Hearing ("FH") Office. Improved database supporting FH operations so that accountability can be established where it belongs, with the Examiner and team taking a case action. Deployed experience FH Senior Examiner and Legal Assistance staff to teams to support decentralization efforts.

Operations

- Completed first full year of the partnership between DHS, the Sheriff's Office and the District Attorney's Office to actively pursue the arrest and prosecution of those who intentionally violate and defraud the public welfare system. As with each Project Save initiative, this effort holds clients and applicants accountable, thereby ensuring the integrity of all Social Services Programs. The process also makes available a Disqualification Consent Agreement ("DCA") which allows for the termination of benefits within 10 days instead of the state procedure that has a timeframe of 6 months, while also disallowing access to Public Assistance for up to 18 months. In total, DHS saved almost \$1 million in overpayments and cost avoidance in the first year of operation.

Office for the Aging

- Partnered with the Monroe County Youth Bureau to sponsor Fishing Derby 2010, the first annual intergenerational fishing derby.
- Started Breakfast Club 60 programs at two Friendly's restaurant locations. The Breakfast Club is a meal program designed for people age 60 and over. The suggested contribution for breakfast is \$3.00 per person, although no one is turned away if they cannot afford to pay. In addition to breakfast, the program provides seniors the opportunity to socialize with their peers in a congregate setting. It is also an opportunity for Office for the Aging ("OFA") to promote other senior programs from which these attendees may benefit.

Youth Bureau

- In March, the Rochester Monroe County Youth Bureau was part of a collective effort with the Rochester Community Foundation, the Rochester City School District and numerous not for profit agencies, to secure a 3 year million dollar grant for the "Boomer Mentors" initiative.

Office of Mental Health

- The New York Care Coordination Program has completed Phase I of a managed care initiative, focused on improving outcomes and reducing costs for individuals with serious mental illness with the highest needs and related highest costs of care. Complex care management strategies to integrate physical health and behavioral health care for that population has been implemented, along with components of an infrastructure to support a managed care approach.
- Rapid Engagement Demonstration Project ("RED") had been implemented with DHS – Financial Assistance Division. The project serves individuals with addictions who have multiple emergency housing admissions and multiple failed or incomplete DHS applications. The RED Team provides support and assistance to engage and link individuals with addictions to benefits and services.

2011 Major Objectives

Child and Family Services

- Expand Family Assessment Response work in Child Protective Services ("CPS") Investigation, to engage with families who are the subject of low risk CPS reports in a more effective manner.
- Continue, in a partnership with the Probation Department, the Alternatives to Detention Team in an effort to further reduce the number of arrested youth who are detained and placed.
- Implement Phase II of our Building Bridges demonstration pilot with our 3 local residential foster care providers, to redesign residential care to reduce length of stay and improve outcomes.

Financial Assistance

- Coordinate the updating and enhancement of computer-based systems that support streamlined case processing. Current and anticipated efforts include new case management software, imaging software to eliminate paper files and new desktop software that integrates our varied software applications into one access point.
- Procure the necessary software and telephone system to support task-based management of the Medicaid caseload. The Medicaid caseload has grown dramatically in the past two years necessitating a change in business process from one that is case-based to one that is function-based.
- Implement supportive employment programming, including wage subsidies, to build on and supplement those offered through OTDA without incurring additional local costs.

Operations

- Special Investigations expects to double the number of investigations completed through the prosecution and Disqualification Consent Agreement ("DCA") process. An additional investigator will be shifted to the process to provide overpayment calculation and processing more expeditiously.

Office for the Aging

- Enhance the *RHIO* / *PeerPlace* electronic record database connection to streamline medical/casework data collection and reporting. Explore the potential of linking these databases with other emerging technologies in order to increase efficiencies and reduce community healthcare costs.
- Work in conjunction with United Way, sponsoring agencies and other stakeholders in identifying the most suitable location for an enhanced urban Senior Center. This urban Senior Center will bring together participating Senior Center sponsors located in the city of Rochester to serve older adults “under one roof”. This collaborative effort will provide a one-stop-shop which will meet the needs of older adults in a cost-effective manner and provide enhanced services to those that want and need these resources.

Youth Bureau

- To work with the County Administration, Probation, Rochester Mentors, RochesterWorks!, City/County School Districts and Children’s Center to launch the pilot for the “Transition Mentors” initiative. This program is aimed to decrease the recidivism rate of the Monroe County Children’s Center by establishing a relationship with a first-time detainee and mentor within 48 hours of incarceration. This relationship offers guidance and support for the youth and creates a path to education and employment as well as to help prevent that youth from returning to the Center.

Office of Mental Health

- Implementation of Phase II of the managed care initiative of Western New York Care Coordination Program. Phase II will further extend complex care management and additional managed care strategies to improve outcomes and reduce costs for those with complex behavioral health needs and corresponding high costs of care.

DIVISION: Social Services (5100)

DESCRIPTION

This reflects accounting at the department level and consolidates revenues received from the state and federal government in the form of block grants or capped allocations designated to fund various children and family services. These funds support both administrative and programmatic activities, and as a result, most of the allocations are distributed as revenue to multiple budget accounts. Budget accounts receiving revenue from one or more of these sources include: Central Administration (5101), Child and Family Services (5102), Financial Assistance (5103), Operations (5105), Staff Development (5107), Welfare Management System Support (5109), Family Assistance (5111), Day Care (5113), Adolescent Care (5114), Child Welfare (5115) and Purchase of Services (5116). The distributed revenue is identified in the Budget Summary of each account in italics as revenue shifted to Division (5100). This represents the sum of all the Federal and State Allocation amounts. The significant decrease in the Child Care Block Grant is due to a reduction in the state allocation as well as the ending of federal stimulus funds. The Protective/Preventive funding is included. Although it is not a fixed allocation amount, it is received in one payment rather than specified to each reimbursed account.

DEPARTMENT: Human Services (51)
DIVISION: Central Administration (5101)

DIVISION DESCRIPTION

Staff in this division provide upper management and administrative support services to the Department of Human Services. The Commissioner of Human Services supervises the planning and delivery of all department programs, provides central policy direction and manages department personnel. Staff in this division also perform financial analysis, develop the department's annual budget request and perform other business process related activities. Charges to DHS for staff located in the Finance Department (12) are located in this division.

Administrative revenues which are received in one payment have been budgeted as one amount. For accounting purposes they are located in Division 5102, Child and Family Services and Division 5103, Financial Assistance. For the budget presentation they are distributed to the division they support and displayed as revenue shifted with the appropriate divisions noted. This is similar to the ongoing treatment of allocations at the department level 5100.

DEPARTMENT: Human Services (51)
DIVISION: Child and Family Services (5102)

DIVISION DESCRIPTION

The Child and Family Services Division provides direct and purchased services to increase safety and well-being, ensure permanency and enhance development for vulnerable children and families. The federal Adoption and Safe Families Act ("ASFA") was the most comprehensive child welfare legislation in two decades and is having profound impacts on Child Protective Services, Foster Care and Adoption. Three themes are central to ASFA. The first is that every decision about whether to keep a child at home, place the child in foster care or return the child home from foster care must be based on careful review and documentation of safety. The second theme is that every child has the right to a permanent, loving home whether with biological parents, other relatives or in an adoptive home. Child and Family Services is obligated to work toward this goal for all children. The third theme is timeliness. By creating tight timelines, ASFA requires that efforts to achieve safety and permanency be infused with a sense of urgency. As a result of both ASFA and major permanency legislation that took effect in late 2005, services to children are now subject to more frequent administrative and legal reviews.

The Child and Family Services Division also administers a contract to provide non-secure group homes for Persons in Need of Supervision ("PINS") children who are awaiting Family Court action. This contract is budgeted in Adolescent Care (5114030000). In addition two preventive programs, budgeted in Purchase of Services (5116050000), offer services to youth at risk of residential placement (Youth and Family Partnership and Family Access and Connection Team) to support families in keeping these youth safe in the community.

SECTION DESCRIPTION

Administration (5102010000)

This section is responsible for directing programs and personnel dedicated to the delivery of social services to eligible families, children and individuals. The Director of Child and Family Services has responsibility for coordinating with other community, public and private agencies to ensure that human service needs are being met efficiently, to reduce service gaps and to minimize duplication of efforts.

Program Support (5102020000)

This section monitors relevant input in three distinct state databases, interprets and distributes reports from the state, provides staff training and functions as a liaison between the county and state including management of federal, state and local program audits. It ensures accuracy of all foster care payment authorizations. It also maintains adoption subsidy cases, makes determinations of eligibility for federal reimbursement for foster care expenses and monitors internal claiming to maximize federal funding.

Residential Care/Homefinding/Adoption (5102040000)

Staff working in this section provide a variety of specialized foster care services. They are responsible for recruiting, training, certifying and monitoring foster homes. They are also responsible for arranging and monitoring placements in residential care facilities for PINS and Juvenile Delinquents who are placed in voluntary child care agencies. Finally, they are responsible for locating adoptive homes, monitoring pre-adoptive placements and completing the adoption process for children who have been freed for adoption.

Preventive Services (5102050000)

Preventive services are provided to children identified as being at risk of foster care placement, to children whose length of time in foster care can be shortened with this assistance and to children recently returned home from foster care to prevent their replacement into care. The staff in this section screen all preventive services cases, track the progress of children being served and monitor program effectiveness. Services to the families may be either purchased or provided directly by DHS staff. Preventive day care can also be provided as an additional supportive service as part of the case plan. DHS also manages two primary preventive programs: Building Healthy Children and Nurse Family Partnership.

Child Protective Intake and After-Hours (5102060000)

Child Protective Services maintains a local hotline and is also responsible for taking child abuse calls reported to New York State twenty-four hours per day, seven days a week. Staff in this unit screen calls to see if they meet the standards for a CPS report, assign them to the appropriate investigative unit and initiate immediate investigations when necessary on weekends and late at night.

Child Protective Investigation (5102070000)

Staff in this section investigate reports of child abuse and neglect. These investigations must be initiated within twenty-four hours of receipt. Investigations include contacts with parents, children and collateral sources (e.g. doctors, schools), as well as with the source of the report. Families are referred to preventive services or community based service organizations, where appropriate. Children at imminent risk may be placed in foster care or with fit and willing relatives. CPS cases where there are serious concerns about the ability of the family to provide safe, appropriate care for the children are "indicated" cases. If a report is indicated a decision is made whether or not there needs to be family court involvement; if the court is petitioned, the case is then transferred to Child Protective Management.

Child Protective Management (5102080000)

Once cases are indicated and a court petition filed, they are the responsibility of the Child Protective Management teams. Families, most of whom DHS is ordered by family court to supervise, are provided with supportive and rehabilitative services. Children may be placed in foster care, with relatives or remain at home depending on the severity of the parents' needs and the availability of other family members to care for them. The goal of these teams is to provide safe, permanent homes for children either with their own parents, with relatives or by freeing them for adoption, if necessary.

Adult Protective (5102090000)

Adult Protective Services are provided to individuals 18 years of age or older who have physical or mental impairments and are unable to manage their own resources, carry out the activities of daily living or protect themselves from neglectful or abusive situations. Staff provide counseling as needed, help obtain appropriate legal and medical care and arrange for financial help and alternate living arrangements as necessary.

Systems Support Group (5109010000)

The Systems Support Group is a team of analysts whose primary responsibility is to provide ongoing support for four major state computer applications. In addition, this staff works closely with various state entities to develop and implement enhancements to the existing systems and applications. The Systems Support Group provides management analysis functions for Human Services administrators and implements automated processes for on-line staff.

Benefit Issuance Control System (5109020000)

The Benefit Issuance and Control System is operated and maintained by a team of computer operators. The BICS staff receives files created by data fed into state applications from the Welfare Management System program on a daily basis. From these files, BICS staff generates eligibility documents and accompanying reports for on-line staff each month. The BICS staff also produces vouchers and rosters each month for the Finance Department. The BICS staff produces monthly state reports in printed and electronic formats for staff at all Human Services sites.

Technical Support Group (5109030000)

The Technical Support Group is a team of technicians that is responsible for ensuring the daily availability of state and county networks and for the initial trouble-shooting of personal computers, printers and servers at all Human Services sites. This staff is also responsible for the inventory, user and system security, installations, relocations and hardware and software upgrades for this equipment.

DIVISION: Safety Net Assistance (5110)

DIVISION DESCRIPTION

Safety Net Assistance is a state program that provides assistance to individuals not eligible for federal aid such as Family Assistance or Supplemental Security Income. Although primarily for childless adults, Family Assistance participants who exceed the five year limit can receive non-cash benefits under this program. Safety Net Assistance recipients are limited to two years for cash assistance. After two years, non-cash assistance can be provided.

Until July 2009, the state and the county shared equally in the cost of this program. State Legislation increased the Basic Grant component of Safety Net by 10% each July: 2009, 2010 and 2011. The state will cover the county's share of the increase through March 2012.

As shown on the caseload bar graph that follows, the Safety Net caseload increased from 2001 to 2004 and then leveled off until 2010. The Safety Net caseload is budgeted to hold at the projected 2010 average through 2011.

SAFETY NET ASSISTANCE CASELOAD TRENDS

The graph below shows the average monthly caseload for Safety Net Assistance over the past ten years and the projected caseload for 2010 and 2011. In the Safety Net public assistance category, the average caseload is projected to reach an estimate of 7,310 in 2010. The average monthly caseload assumed in the 2011 budget is 7,300.

SAFETY NET ASSISTANCE EXPENSE TRENDS

The graph below shows the total annual expenses for Safety Net Assistance over the past ten years and projected expenses for 2010 and 2011. The shift of cases from Family Assistance to Safety Net took effect in 2002. The increase in 2008 includes retroactive payments made to recalculate benefits for cases with an SSI member in the family; ongoing benefits continue. Expenses depend on caseload levels and the cost per case. New York State again changed benefit levels in its 2009-2010 budget. The Basic Grant component is increasing 10% for each of three years beginning with July 2009.

DEPARTMENT: Human Services (51)
DIVISION: Family Assistance (5111)

DIVISION DESCRIPTION

Family Assistance is a state program for needy families funded through the Temporary Assistance to Needy Families ("TANF") federal block grant. The major components of Family Assistance include: maximum five year lifetime participation, job assessments and mandatory work activities for recipients with children over three months of age, domestic violence screening, standardized drug screening and the requirement for teen parents to live at home. In addition, employed Family Assistance recipients will be able to retain more of their earned income. Although federal TANF funding is distributed to the states as a block grant, it is anticipated that there are sufficient funds to fund Family Assistance at the historical rate. Therefore, revenue estimates are based on the traditional formula driven methodology: 50% federal, 25% state, 25% local.

State legislation increased the Basic Grant component of Family Assistance by 10% each July: 2009, 2010 and 2011. The state will cover the county's share of the increase through March 2012.

As shown in the caseload bar graph that follows, the Family Assistance caseload declined each year from 2000 to 2002. The shift of cases to Safety Net at their five year mark is included from 2002 on. The caseload has declined slightly over time until 2010 when the caseload began to increase. The estimate from the projected average of 2010 to 2011 is an increase of 55 cases allowing for economic trends.

DEPARTMENT: Human Services (51)**DIVISION: Medicaid (5112)****DIVISION DESCRIPTION**

The Medicaid program provides medical services for those who are elderly or have a physical or mental disability and for qualifying children and adults who cannot afford to purchase health care services for themselves.

Beginning in 2008, Monroe County's Medicaid obligation is fulfilled by the Medicaid Sales Tax Swap which totals 1.61% of the 4% sales tax levy. The county will continue to be responsible for the direct payment of certain services and for the administration of the Medicaid program. In addition, Monroe County participates in the New York State Demonstration Program that authorizes Monroe County to identify provider fraud, waste and abuse. All these costs are 100% reimbursed through a combination of federal and state funds.

DEPARTMENT: Human Services (51)**DIVISION: Day Care (5113)****DIVISION DESCRIPTION**

Day care is purchased from all types of legal child care providers for children beginning at six (6) weeks of age and continuing through age 12. The funds in this division provide child care for Family Assistance recipients so they can work or participate in required employment activities, for families that are making the transition from public assistance to self-sufficiency and for low income working parents. Day care is also provided when it is needed as part of a child services plan for children who have been abused or maltreated or whose caretaker is seriously ill in order to allow a child to remain at home rather than entering foster care.

Day care is primarily funded through the New York State Child Care Block Grant ("NYSCCBG"). The NYSCCBG allocation reimburses 75% of the cost of Family Assistance day care and 100% of Transitional and Low Income day care up to the level of the block grant allocation amount. Protective/Preventive day care is not included in the NYSCCBG funding mechanism but continues to be funded through a combination of other federal and state revenue sources and local funding.

During 2008, based on providing the full market rate, expense estimates began exceeding the available level of funding. At the same time the NYSCCBG allocation was also reduced. By fall of 2008 a policy decision was made to limit Low Income eligibility to only those families below 125% of the Federal Poverty Level ("FPL"). In 2009, the NYSCCBG was increased partially utilizing federal stimulus funds. Funding was sufficient to restore the eligibility to 165% of FPL effective May 2009.

Funds set aside for the Facilitated Enrollment Grant in the state 2010-2011 budget for calendar year 2011 are also appropriated in this division.

DIVISION: Adolescent Care (5114)

DIVISION DESCRIPTION

This division includes the costs of the care, housing and instruction/training of persons involved in the following programs: PINS and JD Care, New York State Juvenile Justice Facilities and Non-Secure Detention.

The Department of Human Services continues to coordinate appropriate supports to families, moving toward its goal of fewer placements and shorter stays in care. Caseloads in 2011 for JD/PINS reflect a significant decline from the 2010 budgeted caseload. However, the state calculated cost per day of care for Juvenile Justice Facilities has increased over 35% from the 2010 Budget to the 2011 Budget even though cases and number of care days have decreased.

SECTION DESCRIPTIONS

JD/PINS Care (5114010000)

A Person in Need of Supervision is a youth, up to age 18, whose behavior is incorrigible and who is beyond lawful parental control. A Juvenile Delinquent is a youth between the ages of 7 and 16 years who has committed an act, which if it had been committed by an adult, would be considered criminal. Children are placed at various levels of care depending on the severity of the crime and individual circumstances.

In general, Family Court, upon recommendation from the Office of Probation-Community Corrections, places PINS children into various levels of care including foster homes, group homes and residential treatment centers/institutions. These youth and their families usually have been served by a diversion program prior to placement. Where the diversion has not been successful or when a judge believes the problem is too severe to attempt diversion, a placement is ordered.

JD youth are typically placed in a juvenile justice facility run by the NYS Office of Children and Family Services. However, they may be placed by Family Court in a lower level of care when an environment appears either too restrictive or the child's emotional needs would be better served through a child welfare residential institution.

Juvenile Justice Facilities (5114020000)

Children who have been adjudicated as Juvenile Delinquents or Juvenile Offenders by Family Court become the responsibility of the OCFS for placement. There are several levels of care within the structure. Children with severe behavioral or management problems – generally visible through the crime they have committed – are placed in secure facilities. Those with less severe problems or those who have benefited from higher levels of care can be placed in the least restrictive option – family foster care.

Non-Secure Detention (51140300000)

This category includes the county's contract with Hillside Children's Center to provide group and family situations for children requiring temporary placement pending a Family Court appearance. Youth are placed in group situations at Hillside.

DEPARTMENT: Human Services (51)
DIVISION: Child Welfare (5115)

DIVISION DESCRIPTION

This division includes the costs of services to children who need out of home assistance because of family problems, illness, neglect or abuse. Services include foster family care placements, adoption subsidies and care in institutions such as St. Joseph's Villa and the Hillside Children's Center. Additional services to children and their families, to prevent residential foster care placement, are located in the Purchase of Service Division (5116). Monroe County promotes collaborative efforts between Human Services, including Mental Health, and Probation, to provide a system of intensive, in-home, community based services.

SECTION DESCRIPTIONS

Adopted Subsidy (5115010000)

Human Services is the public agency responsible for placement of children in permanent, adoptive homes, once they are freed for adoption. Subsidies are available for families wishing to adopt children who have special needs and hard to place children. Medical subsidies are also available to help families adopt children with on-going medical or psychiatric needs.

Foster Care (5115020000/5115030000)

Temporary residential care for children is provided in foster family homes, group homes and residences, and in institutions. Over half of the placements are child abuse or neglect-related. Although family foster care is substantially less expensive than institutional care, for some children with multiple service needs, family care is not appropriate.

Transitional and Residential Care (5115040000)

Transitional care is available to persons with mental or developmental disabilities who are in foster care and have reached the age of 21 and have no other appropriate placement alternative. Youth between the ages of 5 and 21 requiring fully integrated longer-term mental health treatment services may be placed in a residential treatment facility.

Independent Living Program (5115050000)

Youth leaving foster care receive intensive preparation and follow-up services designed to prevent the need to return to foster care. An agency works with youth on independent living skills, and with the youth and his/her parents where necessary to help with preparation from care to independent living arrangements.

Special Children's Services – Maintenance (5115060000)

Payment of maintenance costs (room and board) for school-age children placed by school districts in residential facilities is the responsibility of the counties. Rates are established by New York State. The county's role is restricted to payment and claims for reimbursement.

DEPARTMENT: Human Services (51)
DIVISION: Purchase of Services (5116)

DIVISION DESCRIPTION

Human Services enters into contracts for those services beyond its capacity or expertise to deliver. These services primarily involve preventive and protective services for both adults and children. There is continued emphasis on diversified programming to prevent foster care placement. The Monroe County Youth and Family Partnership and Family Access and Connection Team, collaborations with Probation and Mental Health, are cornerstones of the division. The use of donated funds to leverage state reimbursement is budgeted in miscellaneous revenue below.

SECTION DESCRIPTIONS

Homemaker/Housekeeper (5116010000)

Homemaker services and housekeeping services are purchased to help families and individuals remain in their own homes and avoid foster care placements or some level of out-of-home adult care, including hospitalization. Trained homemakers perform home and personal care tasks for clients.

Adoption (5116030000)

Human Services is the public agency responsible for placement of children in permanent, adoptive homes, once they are freed for adoption. Adoption programs promote permanency planning and prevention of long-term foster care placement. Adoptive services include: evaluation of placement needs, identifying and securing adoptive homes, training and counseling prospective parents and instituting necessary legal proceedings.

Preventive and Protective Services (5116020000/5116050000/5116060000)

Preventive services for children consist of supportive and rehabilitative services provided to children and their families to prevent foster care placement or to enable a child to return to the family from foster care. The assumption underlying these efforts is that a child's best interest is staying with the biological family rather than in foster care if the family can resolve its problems with community based services. A family may receive preventive services alone or as part of a child services plan accompanying other services, such as day care or foster care. Protective services are provided on behalf of a child who has been neglected, abused or maltreated and consist of counseling, therapy, emergency shelter, legal representation, etc. Preventive and Protective services for adults assist persons, often the elderly, who are unable to protect their own interest and/or have problems that prevent them from functioning effectively in the community.

Title XX – Other (5116080000)

This category provides interpreter services and transportation services to families in need, in order for them to attend preventive and/or day care services.

Domestic Violence (5116090000)

Funding for this program provides residential and non-residential services to victims of domestic violence. The program serves residents not eligible for public assistance.

DEPARTMENT: Human Services (51)
DIVISION: Home Energy Assistance Program (5117)

DIVISION DESCRIPTION

This division distributes funds available for relief from excessive energy costs to eligible low income households in Monroe County. Human Services works, in conjunction with the Office for the Aging and other community agencies, to certify applicants and provide administrative services for allocation of funds. The program is 100% federally funded. The Public Assistance Benefits payments are made by the state. Localities continue to budget for the administration of the program. Staff continue to be authorized, and partially funded, so that no delays in service will occur. Additional funding for this grant will be appropriated when received.

A Partnership for Youth Grant

The purpose of this grant is to help local programs better meet the workforce development needs of youth and improve youth program outcomes by aligning the workforce and youth development systems. SECTION DESCRIPTIONS

Administration (5701010000)

This section is responsible for the fiscal and programmatic planning and oversight of all operations included in the network of mental hygiene services. In an effort to develop services which address the priority needs of the community, on-going planning is conducted in collaboration with consumers, state representatives, families, providers and other service delivery systems that evaluate the mental hygiene needs of the community. The Director of Mental Health makes funding level and service development recommendations based on this evaluation process.

The Office of Mental Health works with the New York State Offices of Mental Health, Alcoholism and Substance Abuse Services and Developmental Disabilities and is responsible for the interpretation, implementation and oversight of state mental hygiene policy at the local level.

The Office of Mental Health contracts with Coordinated Care Services, Inc. ("CCSI") for the management and coordination of community mental health, alcoholism and substance abuse and developmental disabilities services in accordance with the local mental hygiene services plans. CCSI maintains subcontracts with community agencies for a comprehensive range of services within each of the mental hygiene disability areas.

Socio-Legal Center (5701030000)

The Socio-Legal Center provides a variety of mental health related services and supports to both the criminal justice system and to individuals with mental illness involved in the criminal justice system and their families. Contracts are maintained with psychiatrists to provide competency to stand trial and court-ordered psychiatric evaluations and testimony to the courts as needed. The Center also offers consultation and training to the courts, other criminal justice agencies and support to the Mental Health Court. The Socio-Legal Center serves as a community collaborative, drawing upon partnerships with other agencies serving a forensic mental health population to better meet the needs of this population. The Center is also responsible for monitoring admissions to the forensic mental health unit, appropriateness of discharge plans and in setting quality indicators and standards across the forensic mental health system.

The Assisted Outpatient Treatment ("AOT") program (also known as "Kendra's Law") is operated at the Center. The AOT program serves individuals with serious mental illness who, due to noncompliance with outpatient treatment, may require supervision in the community. The AOT program seeks to link individuals with mental health treatment in the community on a voluntary basis if possible. If voluntary linkage is not possible, the AOT program may seek court-ordered outpatient treatment for those who meet the criteria for an AOT order. Transition management is available to individuals with serious mental illness, to ensure that necessary services (e.g., mental health treatment, medications, basic needs) are available upon release from incarceration. A Medication Grant Program, administered by the Center, makes psychiatric medications available at no cost to individuals until public benefits are in place.

Mental Health Services (5702010000)

On behalf of the County Office of Mental Health, CCSI maintains subcontracts with numerous community agencies for the provision of a range of emergency, crisis, outpatient treatment, residential and community support programs for adults, children and youth. Community support programs include a wide range of service options such as vocational support, respite, family support, self-help, consumer initiatives, socialization and recreation opportunities. There are a number of specialized mental health programs, targeting specific populations such as children, older adults, multicultural populations, persons with co-occurring disorders ("MICA"), homeless and those involved in the criminal justice system. Community mental health services are aimed at offering individuals and families treatment and support services that are person-centered and that assist them in recovery and successful living in the community, avoiding unnecessary hospitalization or out-of-home placement. Mental Health services are funded through state aid, county support, and agency voluntary contributions.

Developmental Disabilities Services (5702020000)

On behalf of the County Office of Mental Health, CCSI maintains subcontracts with several not-for-profit community agencies for the provision of Developmental Disabilities services to residents of Monroe County. Local assistance funding, which consists of state aid, county support and voluntary match dollars, supports pre-vocational and vocational day services and a variety of family and community support programs.

Pre-vocational and vocational services include day training, sheltered workshop and supported employment programs. These programs provide a range of skills training, work opportunities and support services according to individual needs and preferences, aimed at assisting individuals in maximizing their individual vocational potential. Support services are

provided for individuals with disabilities and their families, including information and referral, advocacy, public education and awareness, assistance in ensuring client rights, counseling and case management. A number of programs target specific population groups such as persons with epilepsy, older adults, children with severe handicaps and individuals with a co-occurring developmental disability and mental illness.

Alcohol and Other Drug Services (5702030000)

On behalf of the County Office of Mental Health, CCSI maintains subcontracts with numerous community agencies for the provision of alcoholism and substance abuse services. Programs offered by these subcontractor agencies include inpatient detoxification/withdrawal, outpatient and residential treatment, community residential living, prevention, intervention, education and information and referral services. Funding for these services includes state aid, county support and voluntary match contributions.

Residential services include residential treatment homes, halfway houses and supportive apartments. A number of these programs include specialized services which target females (pregnant and/or with children), individuals with co-occurring disorders ("MICA"), deaf/hard of hearing, HIV positive, criminal justice and monolingual Spanish-speaking populations. Outpatient treatment services target a number of these populations as well. Funded outpatient programs serve a high percentage of Medicaid and uninsured clients.

Prevention, intervention, education, and information and referral programs are provided for both adults and youth. These services range from general community education and awareness activities to intervention programs designed to reach specific target populations such as youth, children of alcoholics, deaf/hard of hearing and multicultural populations. Prevention/intervention services are offered at a variety of school and community sites.

Criminal Court Ordered Cases (5703010000)

The Criminal Court Ordered Cases Division funds the county share of costs for criminal court or family court ordered inpatient hospitalization for mental health evaluation and treatment.

The New York State Office of Mental Health and Office of Developmental/Disabilities bills counties for forensic incarceration of inmates. A psychiatric evaluation, rather than a court order, determines whether an inmate requires treatment and should be transferred to a psychiatric facility.

DIVISION DESCRIPTIONS

Office of the Chief Information Officer (1901)

The Chief Information Officer oversees the strategic planning and implementation of departmental technology initiatives, provides central policy direction for county departments, and manages IS department personnel and budget. Staff members identify information requirements that span the boundaries of departmental jurisdictions and perform administrative functions such as equipment ordering, hardware and software inventory management and equipment maintenance negotiations with service providers.

County-wide Lease and Maintenance (1902)

This is a holding account for the costs of county-wide hardware leases, contracts for all hardware, county-wide software maintenance and client licenses and common computer supplies which are used by other county departments. It was established to separate the costs of support to other departments from the costs of operating the central Information Services Department.

Computer leases for county-wide hardware, maintenance, and data lines are centrally budgeted in this account and charged back to the respective departments receiving the services. This allows better control on expenditures and increased flexibility to meet the rapidly changing information technology environment.

Operations (1903)

The Operations division provides end-user support services, information technology solutions, consulting services and project management for other departments. They also assist in locating solutions to satisfy business requirements and maintain the existing base of county-wide information systems used throughout the county.

SECTION DESCRIPTIONS

Forensic Pathology and Administration (5804010000)

Comprehensive, sophisticated medical-legal death investigation services, forensic pathology, toxicology and other ancillary expert services are provided in over 2,800 investigations per year. Additionally, this section is responsible for all administrative and policy setting activities of the Medical Examiner's Office.

Medical Examiner grants, primarily from the New York State Division of Criminal Justice Services and the United States Department of Justice Office of Justice Programs, will be accepted and appropriated as received. They typically provide funding for staff and instrumentation upgrades for the Forensic Toxicology Laboratory as well as technology improvements and training for the Autopsy and Field Service sections.

Forensic Laboratory (5804020000)

The Forensic Toxicology Laboratory is responsible for screening blood and other body tissues for the presence of drugs or other foreign chemicals and for determining the amount of drugs present once they have been identified. These laboratory results are then interpreted as to their contributory role in a death.

Autopsy (5804030000)

The autopsy section prepares bodies and tissues and then performs physical examinations to determine a cause of death. Items of evidence are also secured and processed to ensure proper documentation of custody is maintained.

Medical Examiner Field Services (5804040000)

The Field Services section responds to a death location and initiates investigations to determine the cause of death. These death locations can vary from in-house scenes to detailed skeletal excavations in remote areas of the county. Cases requiring further investigation are transported to the morgue for more detailed inquiry. In addition, staff interacts with the community by providing lectures/demonstrations to schools and other organizations as requested. Data is obtained and can be provided to the community to help plan and implement programs to limit or reduce mortality.

Additionally, Administration provides consultation and technical assistance to private groups and local governments concerning environmental matters and serves as the Records Access Office for all Freedom of Information requests directed to the Monroe County Department of Public Health.

Grants that are budgeted in this section include Water Supply Enhancement, Healthy Neighborhoods and Adolescent Tobacco Use Prevention Act. The 2011 Grant Budget will be amended as additional funding is received during the year.

Engineering Field Operations (5806020000)

Engineering Field Operations monitors public water supplies, public swimming pools and bathing beaches. Staff provide oversight over construction of individual wastewater treatment systems and respond to complaints related to these issues. Staff also perform site evaluations, soil testing and construction inspections and also approve and inspect repairs to all on-site wastewater treatment systems.

Engineering Plan Review/Water Supply (5806030000)

This program regulates the public water systems and provides review and approval of plans related to watermain extensions and replacements, cross connection prevention devices and public bathing facilities. This section also provides review and approval of plans of new on-site wastewater treatment systems for residential properties, realty subdivisions, commercial projects and provides oversight for rehabilitation of former waste sites. Plans are also reviewed and approved for public sanitary sewer extensions for realty subdivisions, commercial properties and for new and replacement sanitary sewer projects. This section also provides comments for projects for the County Development Review Committee. This section also administers the Drinking Water Enhancement Grant sponsored by the NYSDOH.

Temporary Residences and Institutions (5806050000)

Migrant farmworker housing, children's camps, day care centers, temporary residences, tanning facilities and mobile home parks are inspected, and permits issued where required, to ensure housing and sanitation standards are followed. DEPARTMENT: Public Safety (24)

DEPARTMENT DESCRIPTION

The Department of Public Safety consolidates and manages functions related to the provision of public safety services. The offices of the Sheriff, District Attorney and Public Defender, which are headed by elected or County Legislature-appointed officials, are managed as separate departments.

The largest division of the Public Safety Department is the Office of Probation/Community Corrections. Other Public Safety services include: 9-1-1 Emergency Communications, Office of Emergency Management, the Mutual Aid Fire Bureau, the Public Safety Laboratory, Weights and Measures, Public Safety Communications and Central Police Services which includes Traffic Safety, STOP-DWI and Alternatives to Incarceration. The Assigned Counsel/Conflict Defender Unit and Judicial System Support for the Unified Court System and the State Appellate Court are also included.

The Public Safety Department provides support services and tools to first responders through coordinated efforts with all agencies and disciplines to ensure their protection in serving the entire community. The department shares the responsibility for county safety and security, including that of employees, clients and buildings, with the Department of Environmental Services ("DES"). DES attends to the infrastructure, while Public Safety manages the operational component to ensure public safety within county-operated facilities.

Mission

The Monroe County Department of Public Safety, through the effective, dedicated efforts of its divisions, contractors, employees, volunteers and the community, provides education, prevention, technical support, interagency coordination and direct services that meet or exceed the expectations of the courts, individuals and the public and private agencies receiving these services in order to enhance the quality of life in Monroe County.

2010 Major Accomplishments

- With designation as an Urban Area Security Initiative region, Monroe County has met the federal requirement to exercise and evaluate its Tactical Interoperable Communication Plan. Also, the Office of Emergency Communications evaluated an event to comply with the National Emergency Communications Plan Goal of demonstrating response-level emergency communications within one hour for routine events involving multiple jurisdictions and agencies.
- In January 2010, Public Safety Communications activated a new digital law enforcement voice communications system to provide effective, reliable infrastructure and equipment and to comply with Federal Communications Commission ("FCC") narrowband regulations. The system will afford the opportunity to review participating county communications status and enhance interoperability through sharing resources and centralizing functions.
- The Crime Laboratory has planned training for Forensic Digital Evidence Technicians to offer increased functionality at the new lab facility scheduled to open June 2011.
- The Jail began a system upgrade as the "kick-off" to the Public Safety Integrated Records Management System. The Computer Aided Dispatch ("CAD") system replacement began design and development while business process reviews for the mobile component were completed.
- Probation implemented the sections of Leandra's Law that mandate probation or conditional discharge sentences upon DWI convictions and Ignition Interlock monitoring.
- Probation continued the transition from a local database to a web-based NYS sponsored "Caseload Explorer" software, integrating information across New York State Probation agencies, improving data sharing and reporting capabilities.
- Monroe County Fire Bureau revised a strategic matrix that provides for a more strategic response, cross training and acquisition of specialized equipment needed when responding into City of Rochester fire stations.
- Monroe County Fire Bureau continued to provide local training, including training previously provided by the state. Monroe County will complete 7 firefighter basic training programs by the end of 2010.

- The Emergency Communications Department/9-1-1 Center, in conjunction with DES, began implementation toward hosting a web-based Pictometry application to alleviate the consumption of hard drive space on law enforcement laptops and provide real time data, eliminating the need for updates to individual cars/computers.
- Monroe County Office of Emergency Management ("OEM") has explored the use of the State Emergency Management Office ("SEMO") sponsored, web-based NY-ALERT that offers public alerting and emergency information via e-mail, telephone, fax, pager or other devices.
- With grant funding, OEM continued support efforts of Monroe Community College's Homeland Security Management Institutes' Community Emergency Responses Team ("CERT") training. CERT classes encompass citizen volunteers across the community. The 2010 program focused on strengthening local municipal readiness with outreach to special populations.
- OEM worked in partnership with public safety agencies to develop and staff an Incident Management Team ("IMT") to support community response and coordinate local personnel who have training and experience commensurate with the IMT operational components. Local emergency services agencies are also organizing an inter-agency "Technical Rescue Team" that would coordinate existing equipment and expertise for centralized emergency notification and deployment.
- The Conflict Defender's Office installed the New York State Defender's Association case management system. The new database will allow more efficient tracking of cases, client information, assignments and vendor information by creating uniformity. Further, the Assigned Counsel Program will explore utilizing electronic vouchers and assignments, saving printing and postage costs. These efforts supplement the creation of the centralized appellate briefs data bank, increasing productivity by providing the accessibility to existing information.

2011 Major Objectives

- The Public Safety Laboratory construction is currently on schedule and within budget, with the expectation of "moving in" in June 2011. The new crime lab will be a state-of-the-art facility providing work efficiencies with its layout along with addressing space issues and inadequacies in the current facility.
- Implementation and testing of the Computer Aided Dispatch ("CAD") system will occur in 2011, with project completion in early 2012. The Police Records Management System will be in the design and development phase in 2011. The Public Safety Integrated Management system encompasses all records that originate with a 911 call and is intended to avoid duplication of efforts by integrating all (police, fire, & EMS) records management and jail/booking systems.
- Public Safety Communications continues to work as the lead agency in the Public Safety Interoperability Communications ("PSIC") grant program to interconnect the voice systems of the five surrounding counties and NYS Police. There has been a delay in getting Canadian frequency approval, but expect it to be operational in 2011. Group Members have been planning and developing operational protocols and procuring equipment, while capitalizing on existing assets. In 2010, a statewide application for the Border Interoperable Demonstration Project was submitted and if awarded, would expand the PSIC grant capabilities by extending interoperability throughout the twelve border counties in a "network of networks" concept.
- Monroe County Public Safety will continue to actively participate in New York State Association of Counties ("NYSAC") and NYS initiatives such as the broadband network and interoperability coordination.
- Monroe County Weights & Measures ensures that equity and fair trade prevail in the marketplace, benefiting consumers and business owners. The division plans to increase the number of Retail Price Accuracy Inspections conducted to protect against incorrect and/or fraudulent use of technology. Weights & Measures will also continue to provide training related to business operations to educate owners on laws, rules and regulations enforced, resulting in better compliance.

DEPARTMENT: Public Safety
DIVISION: Legal Representation/Conflict Defender (2402)

DIVISION DESCRIPTION

The Legal Representation Division was conceptually developed through collaboration with the Monroe County Bar Association reflecting an enhanced effort by the county to coordinate and fund the work of private attorneys who are appointed by the courts to represent indigent clients. While the Public Defender's Office usually provides legal services to indigent persons, occasions often arise in which two or more such individuals are accused of involvement in the same crime. Providing representation to more than one co-defendant can result in a conflict of interest for the Public Defender's Office. To avoid that possibility, the courts are mandated by New York State to assign counsel.

To better serve the client community and to reduce the costs associated with rates paid to private counsel, effective January 1, 2004 the county and the Monroe County Bar Association amended the Joint Plan for Conflict Assignments to create a Conflict Defender Office. This office employs attorneys to represent clients in conflict cases in Family Court, misdemeanor cases in Rochester City Court and all Appellate Courts. Other expenditures involve payment of attorney fees, preparation costs for legal transcripts and expenses associated with providing expert testimony (psychiatric evaluations, etc.). Beginning January 1994, expenditures from Legal Representation involve payment to foreign language and hearing impaired interpreters for services rendered in the local criminal courts. Under Judiciary Law, the county is responsible for payment of these expenses.

DEPARTMENT: Public Safety (24)**DIVISION: Office of Probation – Community Corrections (2403)****DIVISION DESCRIPTION**

The Office of Probation – Community Corrections (Probation) provides a multitude of state mandated services. Among the activities performed are preliminary services and investigations of all eligible clients of Family Court, investigation services to the Criminal Courts and supervision and treatment services to all clients sentenced to probation. All Probation efforts have the underlying objective of identifying services and programs that encourage the offender to become a law-abiding citizen.

Probation is dedicated to assisting the courts in rendering decisions and then enforcing the orders of the Court. Officers are responsible for client screening, initial risk and needs assessment and recommendations prior to final court disposition. Officers enforce the conditions of the probation sentence, refer clients to treatment and monitor progress and report violations to the sentencing court. For appropriate persons, programs exist as alternatives to traditional court processing. Staff collaborates extensively with the state regulatory agency, NYS Division of Probation and Correctional Alternatives, along with law enforcement agencies, victims, community/neighborhood organizations, governmental entities, judges, schools, treatment agencies and offenders and families to enhance the public safety of Monroe County.

Probation staff is deployed to various units: Administration, Family Services, Criminal Services and Central Services. Probation Officers and other staff perform field work with offices located at the Hall of Justice, Monroe County CityPlace, 1099 Jay Street and various schools, neighborhood centers and police stations.

SECTION DESCRIPTIONS

Administration (2403010000)

Responsibilities of the Administration Office include financial planning, staff training, personnel administration, contract and grant administration and the collection and distribution of restitution, court-ordered fines, surcharges and fees.

Family Services (2403020000)

Family Services officers provide a variety of services to judges, families and youth relating to Juvenile Delinquency ("JD") arrests (ages 7-16) or Persons In Need of Supervision ("PINS") complaints and petitions (ages 7-18). Probation is designated as Monroe County's PINS lead agency to assist families, schools and police in seeking help for ungovernable or truant youth. Through a collaborative Probation/Human Services/Mental Health team, referred to as the Family Access and Connection Team ("FACT"), officers and staff provide assessment, triage and diversion/supervision services in lieu of Family Court petitions to avoid costly and ineffective detention and institutional placement. Diversion Probation officers provide similar court/detention/placement alternatives for JD youth and more intensive intervention with PINS youth. Investigating Probation officers conduct pre-dispositional investigations on adjudicated JD and PINS youth, assisting Family Court judges in making educated decisions relating to institutionalization or community-based dispositions.

Juvenile Intensive Supervision Program ("JISP") officers, through a cooperative agreement with Monroe County Human Services, provide in-home, community-based intensive supervision for JD and PINS youth placed on probation as an alternative to institutional placement. Other specialized services include Alternative to Placement Program, similar to JISP, which provides intensive services to youth and their families. An Aftercare Supervision team provides discharge planning and intensive supervision of certain JDs released from State Office of Children and Family Service placement, and the Enhanced Supervision Program officers provide intensive supervision to adjudicated JDs. A Substance Abuse Specialist offers intensive service to substance abusing juveniles, and the Juvenile Justice/Mental Health team identifies special needs and provides services to address the problems to ultimately avoid formal court intervention or out-of-home placement. Numerous probation officers are out-stationed at Rochester City schools. The Youth and Family Partnership ("YFP") is a joint Probation/Human Services/Mental Health effort that engages care coordination techniques to handle high-risk, mentally ill PINS youth who would otherwise be placed in residential care at significant county cost.

Criminal Services (2403040000)

Criminal Services consist of probation officers who conduct investigations and prepare pre-sentence reports based on court orders from Supreme, County, City or Town/Village Courts for all defendants convicted of a felony, all defendants whose sentence would exceed 90 days incarceration, all persons sentenced to probation and those convicted as an eligible youth prior to a determination of Youthful Offender status. Officers contact crime victims to assess their losses and report sentencing options and interview offenders to investigate legal, social, employment, mental health and substance abuse factors. Courts may also order pre-sentence investigations on any case they deem appropriate as judges rely on the information to make critical prison/jail/probation sentencing decisions. Jail pre-sentence investigations are completed within two weeks as part of the Project JUST (Jail Utilization Systems Team) initiative, expediting case processes and potentially the transfer of certain offenders from local incarceration to state prison (saving considerable county expense).

Supervising probation officers enforce the orders and conditions of probation as imposed by the sentencing courts. Most caseloads are generic and include a large and diverse group of offenders with varying levels of risk and need. One officer works exclusively with Mentally Ill and Chemically Addicted ("MICA") offenders and the state's Mental Health part of the state court system. Other probation officers specialize in welfare fraud and Youthful Offender supervision. The Rochester City School District provides classroom instruction within the Probation Office to probationers who have been suspended from high school.

The state funded Intensive Supervision Program Unit ("ISP") supervises high-risk felony offenders who have been diverted from commitment at the NYS Division of Correctional Services. A similar program, Misdemeanor ISP, provides intensive monitoring and supervision of offenders who might be convicted of lower crimes, but nonetheless present a high risk to the community.

The DWI Unit supervises and conducts surveillance on multiple drinking-driver offenders who undergo an alcohol abuse assessment and are referred to treatment resources. Specialized teams provide intensive supervision of both sex offenders and domestic violence batterers, some subjected to Global Position System ("GPS") electronic monitoring.

Central Services (2403050000, 2403060000)

This section provides services to both adult and juvenile offenders and supports operations of both the Family and Criminal Services section. The Electronic Monitoring team provides traditional monitoring (alerting an officer if the offender leaves an assigned location) and GPS monitoring (where probation officers constantly monitor the offender's location via

computers), allowing for swift response to any entry into an “exclusionary zone”. Warrant officers specialize in locating and apprehending those juvenile and adult probationers who violate judicial orders and present a high risk to the community. The Domestic Violence Intervention Unit provides intake services and assists victims of domestic violence with preparation of Family Court orders of protection.

The Community Service Sentencing unit provides positive alternatives to incarceration for non-violent offenders by requiring sentenced defendants and JDs to perform work without pay for public and non-profit agencies. An Arson Probation officer provides special expertise to this difficult offender population, working closely with preventive programs and arson investigators. The Project Safe Neighborhoods officer coordinates Probation’s search protocol, enhancing Probation’s ability to find and secure firearms and other dangerous contraband.

Probation has direct involvement with various programs to reduce violent crime and intervene with violent gang activity through collaborative law enforcement efforts such as the Governor’s Operation IMPACT initiative, Operation Cease Fire, Operation Nightwatch and Project EXILE. A Probation Field Intelligence officer leads agency efforts to gather information about probationer activity and shares it with police partners in an effort to prevent violence.

DEPARTMENT: Public Safety (24)
DIVISION: Alternatives to Incarceration (2404)

DIVISION DESCRIPTION

Alternatives to Incarceration ("ATI") programs are designed to provide safe options to costly jail detainment and are partially funded by state grants.

Services provided by Pre-Trial Service Corporation include:

Pre-Trial Release offers an alternative to monetary bail for defendants held in custody in the Monroe County Jail by determining eligibility and assisting released defendants in attending court. As an alternative to prosecution and incarceration for defendants at risk of cycling through the criminal justice system, the Pre-Trial Diversion Program offers assessment, counseling and referral services to eligible defendants, monitors client progress and provides reports to the court. The Enhanced Pre-Trial Services Program expands resources to provide staff for universal screening of all pre-trial options, including bail expediting by monitoring defendants and sustaining court appearance rates. Graduated Restrictions serves defendants not released at arraignment through any other means by providing an array of supervised release programs including increased contact, urinalysis testing, monitoring treatment intervention, pre-trial electronic home confinement and a day reporting center. Some graduating restriction services for pre-trial defendants are available to sentenced offenders as graduated sanctions.

The Domicile Restriction Program through Electronic Monitoring is a sentencing alternative to incarceration for selected jail-bound offenders who are observed daily with electronic transmitters/monitors, random telephone calls and face-to-face home contacts.

DEPARTMENT: Public Safety (24)
DIVISION: Highway Safety – STOP DWI/Traffic Safety (2405)

DIVISION DESCRIPTION

Monroe County's Special Traffic Options Program-Driving While Intoxicated ("STOP-DWI") seeks to reduce the number of deaths and injuries resulting from traffic crashes caused by intoxicated drivers. The program emphasizes DWI enforcement, prosecution and treatment for felony DWI defendants, public information and prevention education and DWI data collection.

The Felony Diversion program is a voluntary, deferred prosecution program offering an opportunity to earn a reduced plea to defendants charged with Felony DWI. Clients are assessed, qualified and recommended for diversion, then referred, monitored and evaluated in treatment. The Pre-Trial Day Reporting program offers a sentencing option for those convicted of DWI through an intervention-focused approach via structured weekend classes addressing issues such as alcohol abuse, personal responsibility and reducing risk-taking behaviors.

The goal of the STOP-DWI unit is to educate residents of the county to understand the impact of intoxicated driving on their lives and the community by disseminating information to diverse audiences to help prevent intoxicated driving crashes and the resulting injuries and deaths from these crashes.

The Governor's Traffic Safety Council grant provides funding for public information, education and enforcement presentations to promote highway safety in Monroe County. The Office of Traffic Safety seeks to promote occupant restraint use, motorcycle safety, teen safe driving, older driver safety, railway crossing safety, bicycle, school bus and pedestrian safety and to discourage aggressive/distracted driving.

Technicians routinely respond to service calls on user equipment and infrastructure, along with calls for on-scene communications during emergencies and special events. This division works comprehensively with the Emergency Communications/9-1-1 Center and all public safety agencies to ensure the safety of the general public and the responders through their most important tool: communications. Public Safety Communications is responsible for the public safety community's "Communications Infrastructure" 24 hours per day/7 days per week/365 days per year.

DEPARTMENT: Public Safety (24)
DIVISION: 9-1-1 Emergency Communications (2407)

DIVISION DESCRIPTION

The county funds the 9-1-1 Emergency Communications System and oversees the operation of the Emergency Communications Department ("ECD"). The ECD is the point of central reception and response to 9-1-1 dialed calls, dispatch of emergency equipment and relay or transfer of service calls to the appropriate public service agencies. Over one million dispatches are made to police, fire and emergency services each year. The City of Rochester operates the ECD under a contractual agreement with the county.

Through the Director of Public Safety, this division administers the operating contract with the city, coordinates the participation of other public service agencies and executes subscriber agreements. It develops long range plans for system development and enhancement and utilizes the 9-1-1 Operating Practices Board (consisting of government, public safety, private sector and citizen representatives) for advisory policy recommendations.

DIVISION DESCRIPTION

Judicial System Support includes funding for court-related services and programs. DIVISION: Mutual Aid Fire Bureau (2412)

DIVISION DESCRIPTION

The Mutual Aid Fire Bureau trains over 3,000 firefighters and officers in the 37 town, village and suburban fire districts outside the City of Rochester. Highly specialized volunteers are trained as members of the county's Hazardous Material ("HAZMAT") Response Team, available twenty-four hours per day, seven days per week. The HAZMAT Team is fully equipped and certified to respond to any chemical, nuclear or biological incident. This team conducts Weapons of Mass Destruction training with the Sheriff's Bomb/Hazardous Devices Unit and Special Weapons and Tactics ("SWAT") team, the FBI and U.S. military. The county HAZMAT team has the distinction of being recognized by New York State as a regional response team in Western New York.

The Fire Bureau Coordinator reviews and updates the Mutual Aid Fire Plan and responds to major fires and disasters with manpower, equipment and command post operations in compliance with the National Incident Management System ("NIMS"). The Fire Bureau assists Incident Commanders and Command Post operations in local community Fire Districts as Monroe County Fire Departments answer over 36,000 emergencies each year.

The Fire Bureau oversees the implementation of the county's Arson Control Plan, which was adopted pursuant to state law. This plan allows for development of public awareness programs to educate residents on the effects of arson on the community. The Fire Bureau provides support for fire investigation services, such as the Juvenile Fire Setter Intervention Program, along with positions in the District Attorney's Office, Sheriff's Office and Public Safety Laboratory to investigate and prosecute arson crimes.

Expenses for the Mutual Aid Fire Bureau are reimbursed through the Local Government Services Charge, a component of the county property tax bill. Monroe Community College reimburses the county for Fire Instructor Training at the Public Safety Training Facility.

DIVISION: Weights and Measures (2415)

DIVISION DESCRIPTION

Weights and Measures performs the state-mandated service of consumer protection within Monroe County under the marketing laws of New York State. The objective of Weights and Measures is to verify that all commercial measuring devices including scales, petroleum/gasoline meters and taxi meters conform to the standards certified by the National Institute of Standards and Technology. This division is also responsible for collecting samples of motor fuel for testing under the New York State petroleum-testing program and checking pre-packaged commodities.

The monitoring of commercial business enterprise standards requires frequent inspection and testing of all weighing and measuring devices within the county. Inaccurate measuring devices and meters are reported and ordered for repair by the inspectors. Civil penalties are imposed for non-fraudulent violations while fraudulent cases are referred to the District Attorney for prosecution.

In September 2006, New York State enacted the Retail Pricing Accuracy Law to expand enforcement duties to ensure establishments that use scanner devices for purchases have accurately matched the shelf tag and registered price.

DEPARTMENT: Public Works Sector – Environmental Services (84)

DEPARTMENT DESCRIPTION

In 1992, the Department of Public Works was reorganized into five separate departments, (Environmental Services, Facilities Management, Transportation, Parks and Aviation). The Division of Pure Waters and the Division of Solid Waste Management were organizationally joined to form the Department of Environmental Services ("DES"). The operations of both divisions are administered by the Director of Environmental Services.

The Division of Engineering was created as a result of the decentralization of the Department of Engineering in 1996. The newly-created Division of Engineering was also placed within DES. As part of the county's 2003 cost-saving measures, the Department of Facilities Management and the Division of Engineering were merged. This consolidation resulted in reduced administrative and overhead costs. Centralizing these services provides greater flexibility in delivering the necessary services associated with building operations and capital project management.

Proper disposal and management of waste materials from water and solid waste are the most basic aspects of environmental protection. The sheer magnitude of the wastes generated by our society from residences and industries demands a coordinated and comprehensive approach. DES's total concept approach to waste management combines advanced wastewater and solid waste management in one sophisticated organization. The department's progress is the result of dedicated individual effort and close cooperation on the part of industry, federal, state and local governments.

The Division of Pure Waters' treatment plants produce wastewater effluent which consistently meets state and federal standards for water quality. The Pure Waters Division strives to protect the environment through effective programs of waste management and abatement. The division also strives toward a standard of excellence for clean water, pollution control and effective solid waste management.

The department's wastewater treatment system and solid waste programs stand as evidence of the county's commitment toward a clean environment and economic stability. The benefits of these investments are obvious as sport fishing returns to Lake Ontario and tributary creeks.

The future role of the department will be to continue to provide dependable wastewater treatment and solid waste disposal for area homes and businesses at the lowest possible cost. Effective toxic reduction in both the wastewater and solid waste streams will become increasingly important for the success of the department's programs.

The department will be challenged in the coming years. Meeting new environmental standards with existing facilities will require careful planning for new processes and construction. An aging sewer infrastructure is being given the attention it deserves. The department's ongoing effort in inflow and infiltration reduction planning and efficient collection operation has laid the groundwork for future efforts.

The success of department programs will be a reflection of our efforts to communicate the environmental and economic needs of our community.

Mission

The mission of the Department of Environmental Services is to enhance the environment, preserve natural resources, reduce environmental impacts of county government, provide leadership in promoting regional environmental sustainability and protect the public health of our community. Accomplishing this will require effective and efficient use of the waste disposal facilities under our charge, provide environmental education and public awareness programs, evaluate and implement new cost effective and environmentally beneficial technologies, recruit and train an enthusiastic and competent workforce and ensure that infrastructure, services and resources meet the demands of the county population and its visitors.

SECTION DESCRIPTIONS

Administration (8201010000)

The Division of Solid Waste staff was responsible for implementing the Monroe County Solid Waste Master Plan ("SWMP") and Comprehensive Recycling Analysis ("CRA"), which detail an environmentally sound and cost-effective plan for managing the county's solid waste through the year 2010. The SWMP was updated in 2010 for the next ten years. In addition to current program and facility updates, it weighs the costs and benefits of implementing various waste management and monitoring practices such as organics separation, "Pay As You Throw" programs, waste and recyclables reporting mechanisms and an assessment of energy and climate change impacts of various solid waste management options. The CRA is performed every year and reports the county's progress, both public and private, towards a 40% recycling goal, to the New York State Department of Environmental Conservation. The Solid Waste staff monitors industry trends, private facility development and regulatory changes, gathers waste generation data from facilities for reporting by the county, administers recycling operations, including the contract for operating the county's Recycling Center and provides customer service and billing services.

Transfer/Haul/Disposal (8202010000)

This section handles all activities associated with solid waste transfer operations, hauling of solid waste to disposal sites, and disposal tipping fees. The county is responsible for the disposal of refuse collected by the City of Rochester and also accepts refuse from local municipalities, private collectors operating in area towns, villages and individuals. Solid waste from these organizations and individuals is received at the Monroe County Resource Recovery Facility ("RRF") Transfer Station, loaded onto hauling vehicles and transported to the Mill Seat Landfill where it is disposed of in an environmentally-friendly and regulatory-compliant fashion. The county charges tipping fees for all waste received at the RRF Transfer Station; these tipping fees are utilized to pay for solid waste transfer, haul and disposal.

Mill Seat Landfill (8203010000)

The Mill Seat Landfill is designed and operated to protect the environment and ensure the safe and responsible disposal of solid waste and wastewater biosolids. Waste Management of New York operates the landfill under a life lease agreement and has assumed all the existing county debt, engineering and construction of additional liners, daily operations, honoring existing host agreements and closure responsibility. In the event Waste Management meets a specific threshold, the county will receive a royalty. This section includes the expenses associated with host community agreements, that the county must pay, which are reimbursed by Waste Management. The permit will remain in the county's name.

As part of the county's green energy program, Waste Management Renewable Energy, LLC began operating a 4.8 MW LFG Energy Facility at the landfill in 2007 and was expanded to 6.4 MW in 2008. The county has selected a team for LFG Energy Facility – Phase II which is expected to be operational in 2012 as gas quantities increase with the incorporation of wastewater biosolids into the solid waste.

Recycling (8204010000)

This section includes all expenses associated with recycling activities to meet the goals of Monroe County's Solid Waste Master Plan. The county's Recycling Center has been operating since December 1992 to process recyclables and prepare them for market. Curbside recycling programs and drop-off centers will continue to operate to divert paper, glass, metal and plastic from the waste stream to comply with the 1992 mandatory county-wide recycling programs. Recyclable markets are expected to remain stable; however, private facilities will continue diverting materials away from the county's Recycling Center. The economic feasibility of collecting and marketing additional materials is being studied in an effort to increase the percentage of materials recycled from the county waste stream. The county plans to operate two 10,000 cubic yard registered leaf composting facilities and is looking to site a third. Moving forward, the county will continue to assist local businesses, industries and institutions to reduce their waste with waste minimization and recycling plans. The county also has plans to implement a public education campaign to encourage residents and businesses to reduce their waste, increase recycling participation, reduce yard waste through grasscycling and composting and increase recycling participation through compliance and enforcement of local recycling and reuse laws.

Municipal Solid Waste Processing Center (8205010000)

The Monroe County Resource Recovery Facility ("MCRRF"), designed to extract refuse-derived fuel and other marketable materials from the solid waste stream, operated on a limited basis from 1979 until 1984; in 1984, those operations were suspended and the facility began operating strictly as a transfer station. Besides its use as a transfer station, it is also used to receive tires for reuse/disposal. In 2008, the Monroe County Legislature approved a service agreement with Metro Waste Paper Recovery U.S., Inc. for the operation and maintenance of the MCRRF. In addition to the Solid Waste Transfer-Haul Operation, the agreement included a Recyclables Processing Operation within the MCRRF. These operations consist of processing source-separated recyclables, dry targeted industrial, commercial and institutional waste, construction and demolition debris, wood and pallets. The Metro Waste Paper Recovery U.S. Inc. agreement enhances recycling to the private sector, decreasing direct county operational costs through diversion of materials that otherwise would be directed to a landfill.

Debt Service (8204010000)

This section of the Solid Waste budget outlines the payment of debt service on borrowings associated with the Recycling Center, services related to the planning of other solid waste management facilities and programs identified in the county's Solid Waste Master Plan.

DEPARTMENT: Public Works Sector – Environmental Services (84)
DIVISION: Engineering (8300) and Facilities Management (8600)

DIVISION DESCRIPTION

As part of the county's cost saving measures for 2003, the Department of Facilities Management and the Division of Engineering were merged. This consolidation resulted in reduced administrative and overhead costs. Centralizing these services has provided greater flexibility in providing the necessary services associated with building operations and capital project management. The computer-aided facilities management system continues to be used in conjunction with the other divisions of the Department of Environmental Services to provide a central location for service calls, work order management, asset management and preventative maintenance.

The division also manages county-owned and leased buildings. Security, code enforcement, building maintenance, fire alarm and security maintenance, custodial and office refurbishing services in the County Office Building, the Hall of Justice, the County Public Safety Building and the Health and Social Services Buildings are provided by the division. Heating, ventilation and air-conditioning services are provided to the County Office Building, Civic Center, Blue Cross Arena, Monroe Community College, Public Safety Training facility, Monroe County Jail, Monroe County Correctional Facility and the Greater Rochester International Airport.

Engineering and Facilities Management operate as a central county resource. All expenses for management of leased and owned buildings are charged back to the residing departments. A portion of the cost of this division is billed to the operating budgets of customer departments and various capital funds.

DIVISION: Pure Waters (8500)

DIVISION DESCRIPTION

Pure Waters was established by the County Legislature to implement the Pure Waters Master Plan to reduce the levels of pollution to safe public health levels in Irondequoit Bay, the Genesee River, areas of Lake Ontario and other waters of Monroe County. The division of Pure Waters consists of four geographic districts containing over 1,000 miles of collection sewers, 100 miles of major interceptors, 30 miles of deep tunnels, two wastewater treatment plants (Northwest Quadrant and Frank E. VanLare), 52 pump stations and the sewer collection systems for the Rochester and Gates-Chili-Ogden districts. Collection sewers in the other districts are operated, maintained and funded by local municipalities.

The County Legislature, which also serves as the Pure Waters Administrative Board, oversees the districts, approves contracts, holds public hearings, establishes the annual rates and approves the division's operating budget. Support services, such as finance, personnel and purchasing are provided by other county departments and expensed as interdepartmental charges. Engineering services, including project design, construction supervision and operation and maintenance improvements, are provided by the county Division of Engineering either directly or through contractual services with private engineering firms. Debt service in each district repays the notes and bonds used to finance construction projects.

[C] Amount per parcel or tax account

Pure Waters includes four separate districts. The districts obtain the majority of their revenue from user charges. Suburban district charges have three components. The first component is the charge for operation and maintenance (O&M) in the district. This charge is in terms of cents per 1,000 gallons of water consumption. The second component is a charge to cover debt service (capital) costs in the district. This charge is in terms of a rate per unit, where a unit is equivalent to a single-family house. The final component is an amount charged per parcel or tax account. The Rochester Pure Waters District has only two types of charges. One is a water use charge which is in terms of cents per 1,000 gallons of water consumption. The capital component is a charge per \$1,000 of assessed value.

DIVISION: Pure Waters (8500)
SECTION: Administration (857201)

SECTION DESCRIPTION

Pure Waters Administration plans, controls and directs the county's comprehensive wastewater collection and treatment program. Pure Water personnel develop and implement system-wide improvements to maximize efficiency while operating within state and federal regulations. The administrative staff also maintains over 225,000 customer files for revenue collection; receives and reviews all requisitions and the resulting purchase orders for supplies and materials; functions as liaison between Pure Waters operational units, vendors and county support departments; develops the annual budget, monitors projected to actual results throughout the year, maintains required accounting records and performs personnel and payroll functions for all districts. In 2010, all personnel and materials were budgeted in Pure Waters Administration. This significant change was done to improve accountability and charge backs to the various areas and programs supported by the section.

Expense appropriations for department support services from county departments such as Finance, Human Resources, Information Services and Law are reflected in interfund transfers. These and the other administrative expenses are proportionately charged back to the Pure Waters districts.

UNIT DESCRIPTIONS

Industrial Waste (8572020100)

This section has the responsibility to implement and provide enforcement of the local Sewer Use Law and Rules and Regulations as well as the United States Environment Protection Agency ("USEPA") Pretreatment Program, as required by the operating permits of the two wastewater treatment plants. This section permits, monitors and inspects industrial users of the sewer system to assure compliance with local and federal regulations. This activity helps protect Monroe County employees, facilities and the receiving waters from potentially dangerous and toxic wastewater discharges. This section also performs sampling and monitoring activities associated with closure conditions for the Northeast Quadrant Landfill. This section is responsible for the operation of the Household Hazardous Waste Collection Facility and the county's Stormwater Management Program.

Environmental Laboratory (8572020200)

This section provides central laboratory technical and analytical support to the two wastewater treatment plants, the Monroe County Health Department, the Industrial Waste Control Section and the Mill Seat and Northeast Quadrant (Gloria Drive) Landfills. The laboratory performs a variety of determinations on influent and fully-treated wastewater, industrial discharges, groundwater, leachate, sludges, ash and other materials. The Lab also tests underground and surface water with special attention given to public and private drinking water supplies, public bathing beaches and closed landfills. Underground and surface water monitoring includes the Irondequoit and Lake Ontario West drainage basins, as well as the Genesee River and the New York State Barge Canal. These analyses are required by the operating permits of the treatment plants and landfill. This activity is permitted and regulated by the New York State Department of Health. The laboratory has the ability to determine pollutant levels of nutrients, heavy metals, purgeable organics and other pollutants. The output of the laboratory documents the high levels of treatment and control that DES provides in our ongoing efforts to protect and preserve Monroe County's natural resources.

UNIT DESCRIPTIONS

Special Expense Administration (8573010000)

This unit provides an accounting of district appropriations to pay for debt incurred for building sewage treatment facilities, for personnel assigned to perform work in the Northwest Quadrant District and for interfund transfers.

Personnel, supplies and materials utilized to perform the tasks associated with the operation and maintenance of both the Northwest Quadrant Treatment Plant and the sewer collection system reside in Pure Waters Administration. The expenses are charged on the basis of actual work as determined from labor accounting through our work order/asset management system.

Maintenance (8573020000)

The units maintain the operational systems, buildings and grounds of the treatment plant and pump stations. Through daily inspections and a preventive maintenance program, they seek to minimize the time during which equipment and systems are out of service.

Operations (8573030000)

Wastewater treatment plant operations involve two major processes: liquid handling and solids handling. The liquid process removes solid matter from raw sewage and produces sludge and treated water effluent. The solids process involves chemical treatment, dewatering and disposal at the Mill Seat and High Acres Landfill.

UNIT DESCRIPTIONS

Special Expense Administration (8574010000)

This unit provides an accounting of district appropriations for payment of debt incurred for the construction of sewage collection facilities and of the debt remaining on town facilities the district has taken over. The district pays the Rochester District for treatment of its sewage at the Frank E. VanLare Treatment plant. The amount is a percentage of the plant's operating and debt service expenses based on sewage flow to the plant. This arrangement has eliminated the need for separate treatment facilities in the Irondequoit Bay/South Central District.

Personnel, supplies and materials utilized to perform the tasks associated with the operation and maintenance in the Irondequoit Bay/South Central District reside in Pure Waters Administration. The expenses are charged on the basis of actual work as determined from labor accounting through our work order/asset management system.

Pump Station Operations (8574030000)

The Cross-Irondequoit Pump Station controls the rate of flow into the Frank E. VanLare treatment plant by regulating pumping and storage of wastewater in the interceptor system to avoid overburdening the plant. Staff regularly inspect the pump stations and interceptor sewers and perform preventive maintenance on the equipment.

DEPARTMENT: Public Works Sector – Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Rochester District (8575)

SECTION DESCRIPTION

The Rochester Pure Waters District operates the Frank E. VanLare Treatment Plant in the City of Rochester. The facility serves the Gates-Chili-Ogden and Irondequoit Bay/South Central district as well as the Rochester District. Costs are distributed among the two districts according to the volume of sewage contributed by each. The plant services an estimated population of 481,000 in an area of 196 square miles and has an average treatment capacity of 135 million gallons per day ("MGD"). The treatment plant continues achieving a high degree of efficiency of pollutant removals; higher than the standards established by various state and federal health laws. This is accomplished by engaging in continuous process improvements. The plant has the ability to treat 200 MGD through the conventional process and an additional 400 MGD during excess wet weather flows. In 1999, a permit was issued which stresses the need to control metals and other organic pollutants as well as to monitor excess weather flows.

This section also operates and maintains the sewer collection system in the City of Rochester. The system includes 572 miles of combined sewers, 128 miles of separate sanitary and storm sewers, 7 sewage pump stations and 2 screening facilities.

UNIT DESCRIPTIONS

Special Expense Administration (8575010000)

This unit provides accounting of district appropriations to pay for construction debt, charges from other districts for use of their facilities, special construction project costs, special services and for personnel assigned to special jobs at the Frank E. VanLare Treatment Plant.

Sewage is sent from southeastern portions of the Rochester District into the Irondequoit Bay system for transmission to the Frank E. VanLare Treatment Plant. The Rochester District pays a share of the Irondequoit Bay District operating and debt service costs in proportion to its use of the Irondequoit Bay System.

Sewer bills are added to the Monroe County and town tax system and are prepared by utilizing water consumption data supplied by the City of Rochester.

Personnel, supplies and materials utilized to perform the tasks associated with the operation and maintenance of both the Frank E. VanLare and the sewer collection system reside in Pure Waters Administration. The expenses are charged on the basis of actual work as determined from labor accounting through our work order/asset management system.

Maintenance (8575020100)

This unit maintains the mechanical, electrical and instrumentation systems, buildings and grounds of the treatment plant and pump stations. Also maintained in this unit are: 57 remote pump stations, 31 tunnel facilities and other equipment installations. Construction crews repair house laterals, replace deteriorated or damaged sewers, catch basins and manholes and install new sewer connections. Through daily inspections and a preventive maintenance program, they seek to minimize the time during which equipment and systems are out of service.

This unit services 736 miles of surface sewers, house laterals, 16,000 manholes and 24,000 catch basins of the Rochester collection systems. It seeks to clean 25% of the system or about 300,000 feet of main sewers per year and operates the combined sewer overflow abatement system. All new sewer installations are managed by the Office of Development Review.

Operations (8575020200)

Wastewater treatment operations at the Frank E. VanLare plant involve two major processes: liquid handling and solids handling. The liquid process removes solid matter from raw sewage and produces sludge and treated water effluent. The solids process involves drying and disposing of the sludge through landfilling.

DEPARTMENT: Public Works Sector – Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Gates-Chili-Ogden District (8571)

SECTION DESCRIPTION

The Gates-Chili-Ogden Pure Waters District includes the G-C-O pump station, forcemain and sewer system. This section operates and maintains the Gates-Chili-Ogden pump station in the Town of Chili. The pump station transmits sewage from the towns of Gates, Chili and Ogden and the western Henrietta portion of the Irondequoit Bay/South Central Pure Waters District. It serves an area of 99 square miles with a population of approximately 55,000. It has an average capacity of 15 million gallons per day ("MGD") with a peak capacity of 30 MGD.

In 1999, the G-C-O treatment plant was shut down and converted into a pump station and forcemain. The sewage formerly treated at G-C-O is transmitted to the Frank E. VanLare treatment plant for processing. Sewage in the Gates-Chili-Ogden Pure Waters District is collected through a system of 325 miles of sewers and 29 remote pump stations. This section funds the operations and maintenance of that collection system.

UNIT DESCRIPTIONS

Special Expense Administration (8571010000)

This unit provides an accounting of district appropriations to pay for debt incurred for constructing sewage collection systems, treatment facilities and charges for personnel who are assigned to jobs in the Gates-Chili-Ogden District and for interfund transfers.

The district sends approximately 20% of sewage collected to the Northwest Quadrant treatment plant and the remainder to the Frank E. VanLare treatment plant and pays the appropriate share of the plant operating and debt service costs in proportion to its use of these facilities.

Personnel, supplies and materials utilized to perform the tasks associated with the operation and maintenance of the Gates-Chili-Ogden sanitary sewer collection system reside in Pure Waters Administration. The expenses are charged on the basis of actual work as determined from labor accounting through our work order/asset management system.

Pump Station Operations (8571030100)

The Gates-Chili-Ogden Pump Station pumps flow from the district to the Frank E. VanLare treatment plant. Pump stations and interceptor sewers are regularly inspected along with preventive maintenance on equipment.

Division responsibilities include the review and coordination of traffic features (signs, striping and traffic signals) for major/arterial city street projects.

Traffic Investigations (8002010000)

The goal of this program is to review, conduct and update traffic information to ensure appropriate traffic control devices are in place on a city or county roadway. This division investigates the need for additional and modified traffic signs in response to citizen requests and it processes all traffic regulatory device changes for city streets and county highways. Outcome measures for this program include the percent reduction in accidents and the percent investigations completed within two business days.

Sign Fabrication/Installation (8002020000)

The goal of this program is to fabricate and install traffic sign control devices to ensure a safe road network throughout the city and county. This division manufactures and installs all road signs along county highways and city streets, and upon request, for towns, villages and other county departments. Also, this division maintains approximately 73,000 traffic signs

as well as parking signs on county highways and city streets. Outcome measures for this program include the percent of sign fabrications completed within thirty days and the percent of sign installations completed on time.

Pavement Markings (8002030000)

The goal of this program is to install and maintain traffic pavement marking control devices to ensure a safe road network throughout the city and county. This division schedules and performs work required to maintain lane delineation, passing zones, stop bars, crosswalks and railroad crossing symbols on county, city and town roads as well as installation of markings on airport runways and county parking lots. County highways require the application of pavement markings every one to six years depending on traffic flow and the type of marking. Outcome measures for this program include the percent of pavement marking installations completed per specification.

Maintenance of Roads (8002040000)

The goal of this program is to improve the condition of county highways by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. This division maintains a safe and serviceable highway system. It is responsible for day-to-day maintenance of the 1,493 lane mile Monroe County Highway System. Major activities include drainage improvements, crack filling, pothole patching, spray patching, hot grader patching and shoulder improvements.

State Supported Highway Capital Program (8002050000)

The goal of this program is to improve the condition of county roads by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. This division collects the state-aid for capital expenditures under provisions of the Consolidated Local Street and Highway Improvement Program ("CHIPS"). The state allocates a specific sum of aid for capital projects with greater durability (highway resurfacing, recycling, reconstruction, bridge rehabilitation and replacement) and longevity (minimum useful life of ten years) than might be expected from routine maintenance efforts. Outcome measures for this program include the percent of lane miles with a pavement quality index greater than 7.0.

Permits (8003010000)

The goal of this program is to issue and inspect permits for work in the county right-of-way to ensure a safe and efficient roadway system, while allowing for economic and community growth. This division conducts design reviews of proposed highway developments, issues highway permits, inspects the highway work performed by the permittee, maintains records, collects permit fees and ensures contractor conformance with county requirements during construction. Outcome measures for this program include the percent of permitted work meeting current standards.

Highway Engineering (8003020000)

The goal of this program is to improve the condition of county roads by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. Snow and Ice Control (8003030000)

This division funds the cost of snow and ice removal and snow fence installation to ensure safe travel on the county highway system during the winter season. The county enters into agreements with each town for the provision of snow and ice control services. Contract amounts reflect prevailing wage agreements in the towns, equipment rental rates determined by the state, current state bid prices for salt and the number of highway lane miles plowed and cleared in each town. Outcome measures for this program include the percent of contract standards met.

Traffic Studies (8004010000)

The goal of this program is to review, conduct and update traffic information to ensure appropriate traffic control devices are in place on a city or county roadway. This division conducts traffic engineering studies and analyses, as well as maintains an ongoing traffic count program and a high accident identification program on county highways and city streets. Design and inspection support is also provided for the milling and resurfacing program, as well as drafting assistance for

various projects. Outcome measures for this program include the percent reduction in accidents and the percent studies completed within two months.

Traffic Control Center (8004020000)

The goal of this program is to operate traffic signals throughout the city and county and to ensure the safe and efficient movement of the public and goods. This division, housed in the Regional Traffic Control Center, continuously monitors 458 traffic signals primarily located along major city streets (310), on selected county highways in the towns of Brighton, Gates, Greece, Henrietta, Irondequoit and Penfield (74), and on selected New York State highways (74). This computerized system monitors traffic flow and adjusts signal-timing patterns to meet traffic flow conditions. The highway system is also monitored through a network of 86 traffic monitoring cameras (37 county-owned) utilized by both Monroe County DOT and the New York State Department of Transportation and located in the City of Rochester and in the Towns of Brighton, Chili, Gates, Greece, Henrietta, Irondequoit and Webster. In addition, calls are received, dispatched and phasing and timing modifications are made for the remaining 339 signals and flashers not on the system. Outcome measures for this program include percent reduction in vehicle stops, delay and emissions due to signal coordination.

Signal Maintenance/Operations (8004030000)

The goal of this program is to operate and maintain traffic signal control devices to ensure a safe road network throughout the county. This division is responsible for the construction and maintenance of 629 traffic signals and 155 flasher devices and 3 speed feedback signs located on county highways and city streets. Work also includes the testing and repair of all signal components. Included in this division is the maintenance responsibility for all components of the computerized signal system, the traffic monitoring camera system and electrical maintenance support for the O'Rorke Bridge. Outcome measures for this program include the percent of change in signal flash calls, communications related calls and repeat calls.

Highway Lighting (8004040000)

The goal of this program is to operate, maintain and upgrade county/city-based expressway lighting systems in order to have safe, efficient and reliable lights. The county currently maintains 4,638 light fixtures on the expressways, including 2,993 outside the city and 1,645 within the city limits. This division funds the cost of operating and maintaining the lighting system on some state arterial highways (780 fixtures) and some county highways (253 fixtures). This division contains the costs of energy, maintenance and capital acquisition for operating the county highway lighting system on both expressway and arterial highways. Outcome measures for this program include the percent of luminaries operating properly.

City of Rochester Programs (8004050000)

County-funded programs which support expressway lighting in the city (1,645 fixtures) and the rehabilitation and reconstruction of the city arterial street system include:

131 K-Debt Service - Debt service on city street and bridge capital projects which the county has undertaken in accordance with the New York State Highway Law, Section 131

Expressway Lighting - County cost for operating the expressway lighting system within the city

Bridge Engineering and Operations (8005010000)

The goal of this program is to improve the condition of county bridges and culverts by programming, pursuing funding options, constructing, maintaining and operating a safe and efficient bridge and culvert network to move people and goods throughout the county. This division is responsible for the planning, engineering, inspection and maintenance of 176 bridges, including the Irondequoit Bay Outlet bridge and 276 culverts. This division designs bridges, reviews plans, inspects, inventories, programs and monitors bridges and culvert construction projects in the Capital Improvement Program. Outcome measures for this program include the percent of deficient bridges and culverts.

O'Rorke Bridge Operations (8005020000)

The goal of this program is to operate a safe and efficient bridge in order to move people and goods across the Genesee River. The bridge operates 24 hours per day, 7 days per week from April 1st through December 15th, and other times with 12 hours advance notice. It is estimated that 600 bridge lifts will be required in 2011 and that the vehicle traffic count will be approximately 20,000 per day. The lower part of the Genesee River is classified by the U. S. Coast Guard as a navigational channel. Federal law required that the waterway be unobstructed (CFR 117.785). This division is reimbursed

by NYSDOT for the operation and maintenance of the Col. Patrick O'Rorke Bridge. Outcome measures for this program include the percent of bridge lifts without problems.

DIVISION DESCRIPTIONS

Monroe County District Attorney's Office

The Monroe County District Attorney's ("DA's") Office is charged with prosecuting felony and misdemeanor crimes and violations perpetrated against the citizens of Monroe County. With a staff of over 80 authorized attorney positions, the DA's Office is one of the largest law firms in Monroe County. Based on caseload (over 5,000 new felony case referrals and over 27,000 non-felony arraignments in 2009), the Monroe County District Attorney's Office ranks in the top ten offices in counties statewide.

The District Attorney is a constitutional officer elected to a four-year term as Chief Prosecutor for Monroe County. State law mandates the work performed by the District Attorney's Office, with the exception of taking part in the adjudication of routine traffic matters in town and village courts.

The First Assistant District Attorney is appointed by the District Attorney and is responsible for general office administration, as well as overseeing all homicide prosecutions, evaluating each homicide arrest to determine the best prosecution strategies to ensure a conviction and assigning a number of such cases to other experienced Assistant District Attorneys ("ADA"s) on staff based upon their individual strengths and the intricacies of each case.

The office is structured into a number of specialized bureaus, with each bureau overseen by a Bureau Chief.

Administration/Support Services (2501)

Administration manages the DA's budget, undertakes grant writing and grants management, oversees personnel procedures, provides all clerical support, data entry and other support services as required. Expenses involving the operation of the entire District Attorney's Office, including infrastructure support (phones or computers for example) are funded within this organizational unit. Additional support services funded within this division include the **Victim Witness Unit**, the **Clerical Support Services Unit**, and the **District Attorney Investigators Unit**.

Victim Witness Unit staff work with crime victims, helping them cope with the demands of the criminal justice system. They also make referrals to counseling programs, arrange rides to and from court, provide interpreters when needed, assist in the preparation of victim impact statements and in making referrals for assistance to the NYS Crime Victims Board. Victim witness advocates also work with ADAs and Probation staff to obtain court orders for restitution for losses.

District Attorney Investigators locate additional witnesses to enhance the prosecution of cases, interview witnesses and transport victims and witnesses to court appearances. The investigators also undertake sealed investigations under the direction of ADAs and provide assistance to other police and government agencies in auto theft, insurance fraud and domestic violence investigations. In 2009, investigators assigned to this unit served over 23,500 subpoenas involving witnesses in felony case prosecutions (including material witness orders), and helped to locate over 1,500 victims and witnesses.

Staff assigned to the Clerical Support Services Unit provides secretarial support to the trial attorneys assigned to the various specialized prosecution bureaus, and is also charged with updating and maintaining all case records tracked by the office's information management system.

Grand Jury Bureau (2502)

Grand Jury administrative staff assists all felony attorneys in scheduling cases for Grand Jury presentation, and works with the Office of the Commissioner of Jurors to ensure the smooth operation of the several Grand Juries that are empanelled each court term in Monroe County. The ADA who supervises the bureau also advises prosecutors on presentation procedures and techniques, and coordinates the work of Grand Jury stenographers, as well as personally presenting hundreds of cases to Grand Juries each year.

Appeals Bureau (2503)

Staff responds to all appeals made in felony cases and makes appellate motions on behalf of prosecutors assigned to the other bureaus. The Appeals Bureau handles all fugitive matters, extradition cases, Federal Habeas Corpus requests and Freedom of Information Act inquiries. Attorneys argue cases before all appellate courts, including the US Supreme Court. Appeals Bureau ADAs also work with and advise prosecutors during trial when legal issues arise which may effect the ultimate disposition of a case.

DWI Bureau (2504)

Staff prosecutes all defendants charged with felony DWI, vehicular assaults and homicides and related cases (Aggravated Unlicensed Operation of a Vehicle 1st, for example). In 2009, 73% of those convicted in both felony and misdemeanor DWI cases were convicted of DWI, the highest percentage of any large county in New York.

Domestic Violence/Child Abuse Bureau (2505)

Staff prosecutes all felony child abuse and domestic violence cases. ADAs assigned to this bureau also work closely with law enforcement, the Domestic Violence Consortium, the Bivona Child Advocacy Center and other interested community groups to prevent and reduce the incidence of domestic violence. The bureau has increased its use of evidence-based prosecution strategies in attacking domestic violence, which reduces the need for the eyewitness testimony of the often traumatized and intimidated victims and witnesses involved in this type of crime.

Local Courts Bureau (2506)

Staff prosecutes all misdemeanors and violations in city, town and village courts, and handles traffic matters in the town and village courts. Those assigned to this bureau staff nine City Court Parts, as well as Drug Court and the Integrated Domestic Violence Court and the forty-six judges who preside over cases in the various Monroe County town and village courts. The ADAs assigned to the Local Courts Bureau prosecuted over 27,000 misdemeanors and violations in 2009, as well as overseeing the majority of City Court felony arraignments and traffic prosecutions in many of the town and village justice courts.

Financial Crimes/Technology/Non-Violent Felony Bureau (2507)

Financial Crime and Technology ADAs prosecute cases of major fraud (generally involving amounts of \$10,000 or more) on the part of individuals, businesses or their employees. They also investigate and prosecute county-wide check fraud schemes, all cases of felony insurance fraud, welfare fraud, bank robberies not involving the use of firearms, prevailing wage cases under the labor law and identity theft. Non-Violent Felony Bureau ADAs prosecute non-violent felony burglary cases, grand larceny, felony criminal mischief and fraud cases not prosecuted by the other more specialized bureaus. A sub-unit of this bureau, the Motor Vehicle Theft and Insurance Fraud Prosecution Program, targets the twin problems of motor vehicle theft and auto insurance fraud through a grant from the State of New York.

The District Attorney's Office also receives a grant from the State of New York for a sub-unit of the Financial Crimes Bureau that pursues the prosecution of those individuals and businesses who violate New York State income, sales, excise and employment tax laws, with a goal of recovering lost revenue for the state's citizens. Since its inception in 2005, the Crimes Against Revenue Program has resulted in restitution being ordered in the amount of over \$695,000 from those convicted.

Major Felony/Gun Violence Bureau (2508)

Staff prosecutes career criminals and violent felony offense categories of robbery, burglary, assault, rape, sexual abuse and cases involving the use of firearms in the commission of a felony. The Major Felony Bureau Chief supervises the ADAs assigned to two additional sub-units (the Gun Bureau/Project EXILE Program and the Arson Bureau) and shares supervision with the Special Investigations Bureau Chief of the Operation IMPACT Program.

The ADAs assigned to Project EXILE specialize in prosecuting felonies involving the illegal possession and sale of firearms, and work with the US Attorney's Office to prosecute some of these cases in Federal Court in order to obtain longer prison sentences than State Courts may allow.

The District Attorney's Office assigns a felony ADA to work full-time on prosecution of crimes involving elder abuse. The Major Felony Bureau Chief is primarily responsible for supervising the work of this ADA, who is charged with the prosecution of felonies involving victims age 65 and over.

Special Investigations Bureau (2509)

Staff prosecutes all felony drug possession and sale cases, obtains court orders for wiretaps when required and works with arresting agencies to seize the assets of convicted drug dealers. This bureau is also responsible for initiating the majority of the asset forfeiture cases in which the District Attorney's Office has a claim. The Special Investigations Bureau Chief shares responsibility with the Major Felony Bureau Chief in supervising the prosecution component of the Operation IMPACT Program.

Operation IMPACT

Beginning in 2004, ADAs assigned to Major Felony and Special Investigations units began working together with the Rochester Police Department, Monroe County Sheriff's Office, New York State Police, United States Attorney's Office, Probation Office, Parole Office, the Mayor's Office and other agencies in a comprehensive effort to reduce homicides, street violence and related drug trafficking. The implementation of this program involved restricting and eliminating plea bargaining on armed violent felonies, gun possession cases and drug dealers and instituting other changes to keep felons in custody while cases are pending. This initiative resulted in a sharp increase in the number of violent felons receiving stiff state prison sentences for their crimes. ADAs funded through this program are assigned to the Major Felony/Gun Violence Bureau and the Special Investigations Bureau. The \$1,847,719 combined City of Rochester/County of Monroe 2009-2010 IMPACT grant award was the largest given to any county outside of New York City.

DIVISION: Civil Bureau (3802)

DIVISION DESCRIPTION

The Civil Bureau is authorized by statute to act as the enforcement officer for all courts within the County of Monroe. The responsibilities delegated to this bureau are in two distinct areas. One is the service of process such as summons, subpoenas, notices, petitions and orders. The second area, enforcement, involves evictions, executing on personal and real property, sales of personal or real property seized by the Sheriff and orders and warrants of arrest for civil contempt. The Sheriff is mandated by law to perform these services with a productive, dedicated and accountable work force.

Revenue is attained through receipt of fees and mileage for service and/or executing and poundage (the retention of 5 percent of every dollar collected via an execution). The Civil Bureau also must perform service of process and other acts at no charge by mandate of law. Examples are orders of protection, process for other Sheriff's departments and governmental agencies and the Legal Aid Society.

Through consistent internal review and audit, and proactive marketing of services, the Civil Bureau continually strives to maximize revenue received from the public and private sector.

Road Patrol Calls for Service

SECTION DESCRIPTIONS

Administration (3803010000)

Management personnel in this section supervise Patrol Division staff and Tactical Unit activities, respond to public inquiries concerning the division, and maintain liaisons with other police and emergency units throughout the county. Building space charges, tuition reimbursements and debt service charged to the Police Bureau are consolidated in this section's budget.

Road Patrol Zone A (3803020000)

Road Patrol Zone B (3803030000)

Road Patrol Zone C (3803040000)

The uniformed deputies of the Road Patrol's three zones are the largest and most visible segment of the Police Bureau. Working primarily in municipalities that have no police force of their own, the Road Patrol enforces traffic laws, patrols neighborhoods, investigates complaints and crimes, and conducts community education programs.

Criminal Investigation (3803050100)

The Criminal Investigation Section (CIS) investigates all felony and violent crimes reported to the Sheriff's Office, investigates all criminal complaints within the Jail and performs other investigative duties as required. Upon request from local police departments, this section also renders specialized investigative services for solution of major crimes.

Community Services (3803060000)

This section performs the community outreach functions for the Police Bureau which includes developing and implementing crime prevention and safety programs, communicating with county residents on police-community matters, coordinating and teaching the county's DARE and conflict resolution programs and providing juvenile counseling. Community Services programs enhance positive community attitudes toward law enforcement and instill a sense of community security.

Tactical Unit (3803070000)

Five special police activities make up the Tactical Unit. The Special Weapons and Tactics (SWAT) unit responds with special techniques and weapons to critical situations. The Hazardous Devices Squad perform the technical functions necessary to handle and neutralize explosives. The SCUBA Squad locates and retrieves drowning victims, submerged vehicles, weapons and other evidence. The K-9 Unit uses trained dogs for searches and in situations where the life of an officer might be placed in jeopardy. A Hostage Recovery Team works to free those held against their will. No staff is permanently assigned to the Tactical Unit. When an adverse situation develops, specially trained deputies from throughout the department are called upon for their expertise. Funding reflects the cost of supplies and materials associated with these activities.

Navigation Enforcement (3803080000)

The navigable waterways in Monroe County are patrolled by the Sheriff's Office during the summer boating season. These deputies enforce laws and speed limits, render assistance to boaters in distress and provide safe boating instruction. Most expenses related to this activity are 50% state reimbursable.

Traffic Enforcement (3803100000)

The Sheriff's Traffic Enforcement Unit is a combination of Sheriff's Tactical Accident Reduction (STAR) and the day-time traffic unit. The day-time traffic unit is an expansion of the STAR Unit with patrol during the day-time hours. This unit directs the county effort to reduce the occurrence, frequency and severity of traffic accidents, especially when alcohol is a contributing factor. The effort involves identification of high-risk accident locations, intensified patrol and enforcement activities and evaluation of the impact of stricter enforcement on the incidence of traffic accidents.

Victim Assistance Program (3803110000)

The Sheriff's Victim Assistance Program is a comprehensive program that engages victims at the scene or immediately thereafter, and walks them through the criminal justice system as needed. Direct services provided by this program include: crisis support; outreach through the home, workplace and hospital; information and referrals; case status information; short term counseling for victims and their families; advocacy; court procedure information and accompaniment; assistance with property recovery; reimbursement assistance for lost wages and medical bills.

Special Services (3803120500)

This section supervises the operations and personnel of the marine and parks security programs. Staff patrol county parks during the summer season, enforcing laws and maintaining peace and order. Remote park areas are patrolled on horseback to provide increased security. To segregate expenses for purposes of reimbursement, the Navigation Enforcement staff is in a separate account (3803080000).

Airport Security (3803140000)

The Airport Security Unit patrols the Greater Rochester International Airport complex, provides law enforcement support to the pre-board screening process and directs the flow of traffic on airport roadways.

SECTION DESCRIPTIONS

Administration (3804010000)

The Jail Bureau functions under the supervision of the Jail Superintendent who ensures that the jail is operated in compliance with state laws and minimum standards established by the State Commission of Correction. Command staff reporting to the Superintendent are responsible for the daily operation of the sentenced and non-sentenced facilities. The Superintendent, assisted by sworn officers and civilian personnel, supervises jail personnel, and is responsible for the safety, security and efficient operation of both facilities. Staff perform budgetary, payroll and other administrative functions. Building space charges, temporary help, tuition reimbursement and debt service for the jail facility are consolidated in this section's budget.

Prisoner Transport (3804020000)

Jail Bureau staff transport inmates from facilities to and from courts, medical facilities and other penal institutions and guard inmates while in courtrooms and hospitals.

Prisoner Services (3804030000)

Prisoner Services develops and coordinates programs and services to help inmates adjust to incarceration and prepare for re-entry into the community. The staff provides and arranges for academic and vocational instruction, recreational activities, religious services, job placement and work release programs. A comprehensive chemical dependency program for the sentenced population aggressively combats this prevalent inmate problem.

High Impact Incarceration Program (3804040000)

The High Impact Incarceration Program ("HIIP") enables the Sheriff's Office to provide carefully screened technical parole violators access to chemical dependency treatment services. Inmates who are deemed eligible for participation in this program are housed together in a therapeutic community where they receive intensive drug abstinence programming. The jail also facilitates the placement of these inmates in aftercare services where their progress toward a drug-free re-entry to the community is monitored closely until completion of the program. For 2011 this program will be blended with the Prisoner Services fund center.

Security Unit (3804050000)

This section guards inmates and maintains security within the jail. Activities of security personnel include monitoring inmate housing areas, booking inmates, processing unarraigned inmates and supervising inmate activities.

Jail Visitation Program (3804060000)

This program provides for closely supervised visits, promoting inmate morale and maintaining important ties with family and friends.

Food Services (3804080000)

A contracted vendor produces three meals a day for the jail inmates. Special meals are prepared for those requiring medical, religious or vegetarian diets.

Medical Unit (3804090000)

Physical, mental health and dental needs of inmates are contractually provided while they are in custody. Daily sick calls are provided with further treatment, where appropriate.

Jail Records (3804100000)

The maintenance of documents related to prisoner commitment and discharge is performed by Jail Records. Bail money is also collected in this area.

Jail Service Maintenance (3804110000)

This section maintains the jail buildings, equipment and operating systems for the health and safety of inmates and the jail staff. This includes maintenance of all HVAC, plumbing, electrical and jail security and control systems.

Quartermaster (3804120000)

The staff of the Quartermaster orders and distributes equipment and supplies required by the Jail Bureau. They also maintain life-saving and fire fighting equipment, riot control equipment and the department's weapons.

MULTI-YEAR BUDGET FORECAST

OVERVIEW

Since County Executive Brooks took office, her budgets have included a Multi-Year Budget Forecast. The purpose of the Multi-Year Budget Forecast is to provide an analysis of what the future financial picture looks like. Since the objective of the forecast is to predict the results from events that have not occurred, it is based on educated assumptions.

The model used for this forecast does not anticipate changes in current service mandates, but because of existing fiscal conditions it projects revenues from federal and state sources decreasing as a proportion of expense. The costs of existing services are forecasted forward and are compared with expected revenue to determine the forecasted deficit.

While the projection is supported by the most current data available, changes in economic conditions and changes in federal and state funding sources are among the many factors that can affect the forecast presented. In addition, the model does not presume or speculate what changes the County Legislature or County Executive will make that will impact expenses or revenues. These projections do not assume the cost containment or revenue enhancement strategies that may be implemented in the ensuing years.

Given the assumptions noted, the county's cumulative gap through 2013 is projected to be \$105.6 million. This gap is predominately due to the increased cost of providing mandated services, which comprise 82% of the total budget and increases in Personnel Service costs. It is anticipated that revenue will not keep pace with these increased costs, nor be sufficient to replace any loss in aid.

FORECAST TRENDS/ASSUMPTIONS

Public Assistance Benefits

Public Assistance Benefits include several programs. Family Assistance and Safety Net, the programs that provide families and individuals with support, are forecast at a 2% increase. Costs for these programs also reflect the state's increase in benefit levels of 10% a year for three (3) years beginning with July 2009, with the state reimbursement for the county's share of the increase ending in April of 2012. Caseloads for Adolescent Care and Child Welfare, consisting of Foster Care and Adoption are projected to decline in 2011 and then remain at 2011 levels. Special Children's Services, comprised of Early Intervention and Education for Children with Disabilities, is forecast at a 3% cost increase. Other programs are Day Care and the Purchase of Services Division which include Preventive and Protective Services for children and adults. These programs are all forecast at the 2011 levels.

Personal Services/Employee Benefits

The county negotiates with various unions with regard to wage increases and benefit packages for employees. The economic climate and the current financial condition of the county weigh heavily during negotiations. Medical expenses for active employees and retirees have increased significantly in recent years. The county has made great strides in containing the growth of these costs by adopting experience rated insurance, increasing employees' contribution to premiums, and moving to more cost efficient plan designs. As a result of current economic conditions pension costs are expected to grow at an unprecedented rate beginning in 2011 and continuing into future years. Monroe County has been able to moderate the impact of this huge growth by opting to amortize a portion of these pension costs.

Expenses (equipment, contractual, supplies, services)

Expenses for equipment and supplies constitute a very small percentage of the total appropriations. The majority of appropriations in this category are for contracts and services required to maintain the activities of each department. The forecast assumes maintenance of effort budget with a nominal increase. Funding for certain intermunicipal agreements are represented in this area.

Municipal Sharing Partners Expense

Included in this category are the funds necessary to pay towns, villages, school districts and the City of Rochester in accordance with our mandated sales tax sharing agreement.

Debt Service

Debt Service reflects primarily the principal and interest payments required for borrowings on capital projects. Capital projects are approved by the County Legislature as part of the Capital Improvement Program and the Capital Budget. The forecast reflects existing debt service schedules as well as anticipated borrowing needs for authorized projects and initiatives identified in the 2011-2016 Capital Improvement Program.

Departmental Revenues

Components of this category include revenues attributable to departments which support their appropriations. Revenues come from a variety of sources such as federal and state aid, fees and intergovernmental revenues. In some cases the forecasted revenues are expense driven, while others are projected at historical levels.

Non-Departmental Revenues

Components of this category include sales tax revenue, property tax revenue and other non-departmental miscellaneous revenues. The forecast assumes a rate of growth based on current economic trends. The current Property Tax rate of \$8.99 per thousand of assessed property value is projected to remain flat, following County Executive Brooks' commitment to not raising property tax on already overburdened taxpayers. Other non-departmental, miscellaneous revenues include interest income, penalties, fees and charges for services. These revenues are projected at historical levels. No one time revenue measures are assumed in this Multi-Year Forecast.

CLOSING

Although the 2011 budget is balanced, the forecasted gap clearly shows that considerable challenges remain. This forecast shows where Monroe County finances will be if no further action is taken.

Despite these challenges, we are confident that with County Executive Brooks' steadfast leadership and commitment to controlling local spending, collaborating with public and private partners to provide services, and leading the fight for mandate reform, Monroe County will continue to experience economic stability in the years to come.

2011-2016 CAPITAL IMPROVEMENT PROGRAM AND 2011 CAPITAL BUDGET

On March 25, 2010, the Monroe County Planning Board transmitted recommendations concerning the 2011-2016 Monroe County Capital Improvement Program (CIP) to the County Executive. The County Executive submitted the proposed Capital Improvement Program to the County Legislature on June 8, 2010 and it was adopted on July 13, 2010. The adopted program proposed \$374.7 million to finance the costs of projects over the six-year period. \$207.2 million will come from federal, state and special district sources. The remaining \$167.5 million will be contributed by the county, with \$16.6 million of that contributed by enterprise funds. Full details of the adopted CIP are published in the 2011-2016 Capital Improvement Program Report, which may be obtained from the Monroe County Department of Planning and Development. (Call 753-2037 for more information.)

Table 1, "2011-2016 CIP Summary," summarizes annual planned expenditures by funding source, over the six-year period.

In accordance with Resolution 272 of 1978 and Section 411 of the County Charter, in which the County Legislature defined and established policy for the development of the Capital Budget, the Planning Board prepared a list of capital projects by priority. Table 2, "2011 Capital Projects", details the projects, their costs and those portions of the costs to be met by county funds and outside aid. This list represents the capital budget for the first year of the six-year program. The 70 projects listed require a total of \$59,770,000 to finance; \$18,316,000 from net county sources and \$41,454,000 from all other sources.

PART I - DEBT SERVICE AND CONTRACTED DEBT

DEBT SERVICE

Each year, Monroe County undertakes numerous capital projects to increase and improve the public facilities which it provides to the community. These projects include expansion and enhancement of recreational areas, reconstruction of highways and bridges, and improvements at the Greater Rochester International Airport, Monroe Community Hospital, and Monroe Community College. They also include projects which improve the environment such as the pure waters program and major renovations and improvements to existing structures at the Civic Center Complex and other County owned buildings. This protects and improves the investments which have been made in these facilities. Additional projects have been undertaken to provide facilities to effectively manage solid waste disposal and provide improved public safety and correctional facilities.

The cost of the above described projects are normally financed by the issuance of debt obligations which are then repaid over several years along with the interest incurred on the borrowings. An amount is included in each year's budget to make these payments, which when combined, are defined as debt service. The amount included in the 2011 Budget for capital projects is \$63,633,890 and is included in the following operating budgets along with \$835,000 to finance General Fund operations and \$208,750 for Monroe Community Hospital operations.

CONTRACTED DEBT

Monroe County and its Pure Waters Districts have entered into agreements and leases for the use of facilities. These agreements generally call for rental payments to be made by the County equal to the debt service incurred by the lessor for the facilities. These payments are considered contractual obligations since the County has not issued any direct debt instruments (notes or bonds).

A. Pure Waters

The Rochester Pure Waters District has assumed an obligation to reimburse the City of Rochester for certain payments made by the City for City indebtedness on sewer facilities leased by the Rochester District. Other Pure Waters Districts have similar agreements for the use of facilities of other districts, such as treatment plants or interceptor sewers.

B Solid Waste

The County has an agreement with the Monroe County Water Authority which requires payments by the County to the Authority in connection with the cost of providing water facilities to certain portions of the Town of Riga. This agreement was entered into in conjunction with the construction of the Mill Seat Landfill. Certain costs associated with the gas to energy facility at the Mill Seat Landfill, payable pursuant to a contract, are also accounted for in contracted debt.

EMPLOYEE BENEFITS OVERVIEW

RETIREMENT

Under New York State Retirement and Social Security Law, Monroe County employees who work full time are required to participate in the New York State and Local Employees' Retirement System ("NYSERS"). The county is mandated to contribute to the NYSERS on behalf of these employees an amount prescribed by the New York State Comptroller. Major changes in recent years have significantly affected the county's annual pension costs. In 1992, a New York State court decision was rendered which disallowed the continued use of the "Projected Unit Credit" (PUC) method of determining actuarial pension liability within the NYSERS. As a result of that decision, the NYSERS phased in over several years a return to the traditional aggregate cost method of pension funding. The 2011 budget for retirement is \$23.8 million.

MEDICAL BENEFITS

The medical insurance cost for each employee varies with the type of coverage. Medical benefits for retired employees are budgeted in the department to which they were last assigned. The total county cost for medical benefits for both active and retired employees is estimated at \$65.0 million for 2011. Employees may choose from a variety of plans and coverage options. Cost to the employee and county depends on the type of coverage chosen, employee's hire date and whether they are covered under union contracts.

SOCIAL SECURITY

A two-tier calculation system is used to determine the county's share of Social Security costs, based on rates specified and mandated under the Federal Insurance Contributions Act ("FICA"). A rate of 7.65% is applied to each employee's salary up to a maximum salary amount of \$106,800. Any salary amount over \$106,800 is subject to a rate of 1.45%. For example, FICA taxes for a position with an annual salary of \$110,000 would be calculated as follows:

$\$106,800 \times 7.65\%$	=	\$8,170
$\$3,200 \times 1.45\%$	=	<u>\$46</u>
Total FICA	=	\$8,216

The 2011 budget also includes coverage for temporary county employees. Beginning July 1, 1991, federal regulations have required that all local government employees must be covered by Social Security whether or not they are members of a public employee retirement system. Temporary employees not in the NYS Retirement System are included in FICA estimates. The total estimated cost for Social Security in 2011 is \$18.0 million.

WORKERS COMPENSATION AND UNEMPLOYMENT

Workers Compensation covers the cost of claims against the county by employees who have been injured while on the job. The cost is budgeted to each department on the basis of the relative cost of claims which the department has experienced. Unemployment insurance provides federal and state-mandated unemployment coverage to former county employees. The cost is budgeted to departments primarily on the basis of each department's share of the county's total payroll cost. The county is self-insured for these two benefits. It pays routine claims from current funds and maintains insurance policies only to cover extremely large claims. For 2011, the county has budgeted \$5.3 million for Workers' Compensation and \$500,000 for Unemployment.

DENTAL INSURANCE

This coverage provides maximum annual payments of \$1,000 per family member. The county is self-insured, and the program is administered by contract. Claims are paid by current operating funds. The 2011 budget for dental insurance, including insurance for retirees, is \$4.9 million.
